

MOBILE AND ADAPTABLE SPACES

HYBRID MEETING ROOMS

Flexibility continues to be a key driver for bringing employees back to the office. Companies are renovating workspaces to provide adaptable environments that include movable furniture, mobile videoconferencing carts, and improved video and audio capabilities.

The return to the office also has brought more collaboration between the IT and facilities groups to ensure total room solutions. Avteq's mounting and furniture solutions add additional opportunities to expand beyond AV technology and offer products that provide the flexibility companies want.

MOBILE CARTS & STANDS

Avteq offers a wide range of mobile carts and stands to bring flexibility to today's hybrid environments. Our carts support displays from 32-98 inches, PTZ cameras and video bars, codecs and meeting control panels—everything you need for a Microsoft Teams Room or Zoom Room.

COLLABORATION FURNITURE

Avteq credenzas support single displays up to 98" and dual displays up to 86", offering a quick installation without reinforcing walls. From small focus rooms to large conference rooms, Avteq's furniture offers the style and functionality to support any collaborative meeting space collaborative workspace.

CAMERA & WALL MOUNTS

With the wide selection of video conferencing cameras and video bars, Avteq's mounting solutions bring additional flexibility to any space. Avteq's mobile carts paired with the leading cameras and devices expand the use of any meeting space.

MICROSOFT TEAM ROOMS. ZOOM ROOMS. WEBEX ROOMS.

Team meetings include both in-person and remote team members, so the design of the room should easily accommodate both groups. Employees also want the flexibility to use any office space for a meeting. Mobile collaboration carts that are video-enabled make it easy for teams to meet anywhere.

MICROSOFT TEAMS + POLY + AVTEQ

Transform your conference rooms and meeting spaces of any size into a collaboration space with Poly room solutions for Microsoft Teams. Avteq's furniture and mounting products for the Poly Studio series, TC8, and G7500 provide a total room solution for any Teams Room.
