

Juniper AI-Native Networking

Juniper's AI-Native Networking Platform uses the right data, the right real-time response, and the right secure infrastructure to assure exceptional user experiences and simplify operations across wireless, wired, and SD-WAN domains.

What you will love

Every connection is reliable, measurable, and secure

- Eliminate up to 90% of networking trouble tickets
- Reduce networking OpEx by up to 85%
- Resolve networking incidents up to 50% faster

Easiest operations in the industry

- IT staff can reclaim their nights and weekends with a network that proactively optimizes performance
- AI-Native tools automatically find and repair problems other vendors can't
- Intuitively communicate with Marvis Virtual Network Assistant, instead of an arcane command line interface and scripting
- New features are offered every two weeks. Update in minutes with no downtime
- 100% programmable APIs for automation and third-party integration

A trusted partner across industries

10/10 Forbes top global companies

30/30 world's largest cloud providers

40/40 top global service providers

17/20 of the most prominent universities globally

18/20 largest global banks

8/10 top global retailers
