

Deliver critical rehabilitative support and supervision with remote solutions

By enabling remote solutions for secure real-time video conferencing anywhere, anytime you can:

- Maintain daily operations remotely
- Deliver critical services without physical contact
- Monitor individuals under community supervision

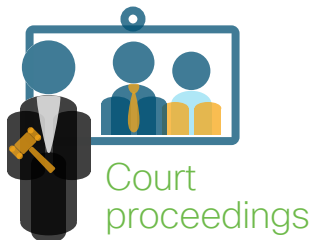

DoJ Grants now available

COVID-19 Emergency Supplemental Funding program can be used for real-time video solutions

Stay safe and secure with Cisco Webex

- Provide compliance monitoring, automated mobile reporting, and bulk check-ins for clients
 - Connect personnel, service providers, agencies, and clients without physical contact
- Deliver healthcare services to quarantined persons (Telemedicine, Drug Counseling, Telepsychiatry)
 - Create secure remote working environments for administrative and other staff

We're here to help you transition to remote video solutions that are simple to use and feature industry-leading end-to-end security.
