

Safer learning with Google for Education

Providing your school community with a safe digital learning environment is foundational to Google for Education, so you can teach and learn knowing your school communities' data is private and secure.

Security for safer digital learning spaces

Protect your school community from evolving digital threats with some of the world's most advanced digital security.

Protect privacy across your school community

Prioritize privacy for your school community with tools that uphold the highest standards of digital responsibility.

Control of your data and visibility into security threats

Stay on top of security threats from one central console that provides full visibility across all of your data and settings that give you more control.

Cybersecurity is more important than ever

[A report released by the FBI and other federal agencies](#) revealed that K-12 educational institutions became the top target for cyberattacks in the 2020–2021 school year, comprising the majority of all ransomware attacks.

Google never stops protecting your digital safety:

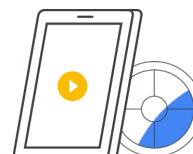

- Every day, 100 million phishing attempts are blocked by Gmail
- Every week, 30 thousand unsafe websites are identified by Google
- Every month, 74 million people get help from Google's [Password Manager](#)
- Every year, 700 million people strengthen their security with [Security Checkup](#)

Every day is safer with Google

Rigorous compliance with education privacy and security standards

Google for Education supports [compliance](#) with the most rigorous global education standards for security and privacy, and we're audited by independent, third-party organizations.

PRIVACY AND SECURITY

Google for Education provides a safer way for everyone in your school community to engage and learn – offering built-in security, rigorous compliance, and control and ownership of your data.

Built-in, automatic, 24/7 protection

- **Automatic protections** built in so you stay current on ever-evolving security threats
- **Proactive blocking** with 24/7 monitoring to ensure resilient security across your digital learning environment
- **Enterprise-grade scalability** and reliability designed to handle extreme shifts in activity to ensure 99.9% uptime
- **Safer browsing and search experiences** with curated age-appropriate content by default for students under 18
- **Helpful tips and customized recommendations** to stay ahead of digital threats

Compliant and responsible data practices

- **Supports compliance** with rigorous global privacy standards, like FERPA, COPPA, and GDPR
- **No advertising** in Google Workspace for Education and personal information of students who are under 18 isn't used for ad targeting
- **Transparency into our data** security protocols and privacy policies
- **Digital responsibility** resources and training to support ongoing internet safety

Visibility and control

- **Data ownership and controls** to ensure you can manage your data the way you want
- **All-in-one-place** security settings and real-time alerts in the security center
- **Analytics and insights** customized to your needs within the security dashboard
- **Flexibility and control** to change default settings for entire schools, classes, or individuals
- **Advanced security upgrades** provide options for adding more proactive security capabilities to suit your institution's unique needs

Create a secure foundation for teaching and learning with Google for Education.

Rely on built-in, automated features that provide comprehensive and ongoing monitoring and mitigation, while also minimizing disruptions, in a secure digital learning environment. All of this is provided in:

- Google Workspace for Education Fundamentals*
- Chromebooks
- Chrome Education Upgrade

* Free for [qualifying institutions](#).

Add premium capabilities to fit the specific needs of your institution.

Choose from a variety of upgrades to get additional security features within your security center to proactively protect your school's data and devices. Upgrades include:

- Google Workspace for Education Standard
- Google Workspace for Education Plus
