WHY IT WINS

FUTURE-PROOFED PERFORMANCE THAT WON'T BREAK THE BANK

Boasting a 10th generation Intel® Core™ Processor, NVIDIA® GeForce® MX250 discrete graphic engine and solid-state storage, alongside a USB Type-C™ port and fast Wi-Fi®, the Satellite Pro L50-G is packed with superior performance technology and ready for whatever the future holds.

A TRULY POWERFUL DEVICE WITH STYLE

Featuring a modern dark blue casing, the Satellite™ Pro L50-G delivers a high-level of performance, innovative storage and extended battery life in a lightweight stylish design to handle the needs of mobile professionals.

DESIGNED TO CONNECT

A comprehensive set of ports and options allows the Satellite™ Pro L50-G to connect with any working environment, wherever that may be. Physical ports include USB Type-C™ 3.2, three USB Type-A ports, HDMI, Gigabit LAN and mic/headphone jack. The advanced flexibility of USB Type-C™ port enables charging, display connections and data transfer.

PROTECTS WHAT'S PRECIOUS

The Satellite™ Pro L50-G is packed with security features to help keep it and the precious data stored on it safe and secure. Security layers including fTPM, Webcam Privacy Shutter and built-in cable lock slot help protect this laptop from cyber-attacks and physical theft.

BUILT FOR THE OFFICE, MOBILE WHEN NEEDED

The Satellite™ Pro L50-G is designed to provide maximum comfort for a full day of work. The full-sized keyboard with a numeric keypad provides a comfortable typing experience, while the large click pad featuring Microsoft Precision Touchpad technology makes navigation quick and easy and a generous 15.6-inch anti-glare screen works in a variety of lighting conditions.
