

# Bring out the best of Windows 11 with Surface

Together, Windows 11 Pro and Surface offer modern solutions for today's workforce.

Wherever and however they work, teams need technology that supports personal productivity and efficient collaboration. Organizations need to prioritize a secure and flexible work environment while simplifying device monitoring and management for IT.

Surface was designed and built to bring out the best of Windows 11. Together, they help employees achieve more.

Surface devices with Windows 11 and on-device AI bring your business the future of productivity today

Windows 11 Surface PCs with NPUs accelerate AI processing for powerful productivity experiences like real-time translation, enhanced search, and intelligent camera effects.\* Get relevant answers, ideas, and inspiration with Copilot in Windows.\*\*

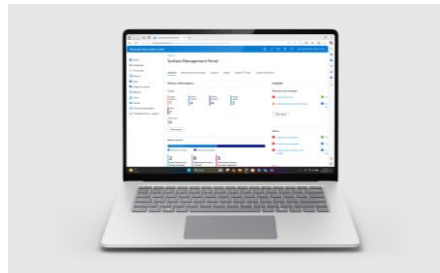

\* Capabilities vary by device. License required for some features.

\*\* Copilot for Microsoft 365 sold separately. Use Copilot key with supported Windows 11 devices; feature availability varies by device and market, see [aka.ms/KeySupport](https://aka.ms/KeySupport).

## Security features enabled out of the box

Surface Secured-core PCs deliver the highest level of Windows 11 protection by default. Advanced firmware security includes Dynamic Root of Trust Measurement (DRTM) on ARM devices and Firmware Attack Surface Reduction (FASR) on Intel devices. Secure Boot defends against attacks during startup. Memory integrity, a virtualization-based security (VBS) feature, protects against kernel-based malware. Microsoft Defender Antivirus delivers up-to-date threat protection. And Windows BitLocker Drive Encryption works with TPM 2.0 to help prevent theft or unauthorized viewing of data.

## Smoother deployment, simpler management

Get employees started on Surface devices with a zero-touch deployment that is 25% faster with Windows Autopilot.\* Manage firmware, disable hardware components for security purposes, and view device health—all within Microsoft Intune.\*\* Monitor devices and manage warranties and support requests more easily with Surface Management Portal built into Microsoft Intune.

## Natural workflows

Windows 11 is designed to adapt to how employees use it, with natural inking, touch-first experiences, and seamless switching between tablet and mouse modes. AI-enhanced video conferencing on Surface Pro and Surface Laptop gives distributed teams better online meeting experiences for easier collaboration.
