

# Microsoft Surface for Business

Modern devices for the intelligent workplace

**More data and information to drive innovation and decision making**

**Fewer cubicles and silos to collaborative workspaces**

**Higher expectations to be more creative and get more done with less**

**More pressure to deliver results faster**

**A focus on shared success over individual achievement**

## Designed for the ways you work

**Thin, light and versatile design**

**Securely work from anywhere**

**Rich display and sound**

**Power, performance, and connectivity**

### Full device management from UEFI to Windows

Every Surface component, from firmware to Windows 10 policy settings, can be managed by Intune and updated via Windows Update for Business.

### Latest in modern Security from Microsoft

Surface integrates a multilayered strategy that dynamically detects and proactively protects to help keep your device secure.

### Stay productive, wherever the office is

According to Forrester Research, Microsoft 365-powered Surface devices give users up to 5 hours in weekly productivity gains with up to 9 hours saved per week for highly mobile workers.<sup>1</sup>

<sup>1</sup> Source: Maximizing Your ROI From Microsoft 365 Enterprise With Microsoft Surface, a commissioned Total Economic Impact™ study conducted by Forrester Consulting, May 2018.

## Microsoft Surface for Business

Devices they love on the platform you trust

**Innovation & craftsmanship**

**Designed for the ways you work**

**Modern security & manageability from Microsoft**

### Work with more natural inputs

Edit in the ways most natural to you. Strikethrough words to delete, circle text to select it, or highlight using Ink Editor with 4,096 pressure points that respond to the lightest touch.

### Industry-leading typing comfort

Laptop 3 15" offers faster, more satisfying and more comfortable typing experience compared to MacBook Pro.<sup>1</sup>

### See your work come to life

On Surface Pro X, razor-thin bezels, the virtually edge-to-edge PixelSense™ Display touchscreen, and our Surface signature 3:2 ratio combine to give you the most efficient amount of screen space to work on 13 inches.

<sup>1</sup> Microsoft commissioned typing study in US, August, 2019 based on typing speed and user ratings of pre-production Surface Laptop 3 15" and 2019 MacBook Pro 15". Margin of error: Speed +/- 156gpm at 95% confidence. Satisfaction: +/- 6% at 95% confidence. Comfort: +/- 6% at 95% confidence.

## Meet our new additions

### Surface Pro X

#### Ultra-thin and always connected

Sleek design and ultimate mobility combine in our thinnest 2-in-1 ever. Stay connected and work more efficiently anywhere with blazing-fast LTE2 and an edge-to-edge 13" touchscreen.

### Surface Laptop 3

#### Style and speed

The perfect everyday laptop is now even faster, with up to 11.5 hours battery life.<sup>1</sup> Choose from rich colors<sup>2</sup>, two durable keyboard finishes, and 13.5" or 15" touchscreens.

### Surface Pro 7

#### Ultra-light and versatile

More power and greater versatility team up like never before in our classic, ultra-light and versatile 2-in-1 that transforms from laptop, to tablet, to portable studio. Now with USB-C™, new Surface Pro 7 adapts to the ways you work better than ever.

### Unplugged power takes you further

All-day battery life keeps you going, and new battery features including Instant On and Fast Charging make you even more productive.

### Next-gen performance for productivity on the move

Laptop 3 with 10<sup>th</sup> Gen Intel® Core™ i5 is two times faster than Laptop 2 and three times faster than MacBook air.<sup>1</sup>

### Stay connected

Intel WiFi delivers integrated connectivity to match higher bandwidth needs across the portfolio. Surface Pro X features the new Microsoft SQ1 processor with Wi-Fi 5 and LTE. Advanced Pro on a next-gen Gigabit modem.

<sup>1</sup> 10Markit score comparison of Laptop 3 13.5" Intel i5 processor with Apple MacBook Air i5 processor, based on a Windows installation. All tests run on Surface pre-production HW and pre-production Intel image. Each result is based on an average from 3 runs. Machines have been left to cool down for every other run. Power mode set to best performance. Measured in August 2019 by Microsoft.

## The tools you care about, built into Surface for Business

Surface for Business customers save time and money with streamlined deployment, modern device management, and built-in, cloud-powered security.

### Windows 10 Pro

Comes standard on Surface for Business devices, offering advanced security protections, enterprise manageability, and enhanced productivity tools.

### Enterprise-grade modern security

Protect data and allow IT to control user access with BitLocker, discrete and firmware TPM chips, and cloud-powered intelligent security with Microsoft Defender Advanced Threat Protection (ATP).

### Leading modern management

Easy to deploy and manage. With a custom Unified Extensible Firmware Interface (UEFI) paired with Windows Autopilot, Surface Enterprise Management Mode (SEMM), and Microsoft Intune,<sup>1</sup> Surface allows IT administrators to remotely control firmware-level functionality.

### Support & warranty

In addition to the standard hardware warranty, commercial customers get Advanced Exchange<sup>2</sup>—a warranty service with expedited device replacement, at no additional cost.

### Best devices for Office 365 experiences

Business customers can choose to pair Surface with Microsoft 365 commercial offerings, empowering everyone to be creative and work together, securely.
