- **New Omnisonic speakers** delivering a more immersive Dolby® Audio™ Premium sound
- **Dual far-field Studio Mics** for great Microsoft Teams calls and dictation in Office
- **Maintain control of your sensitive information** with a removable hard drive for data retention*
- **Improved Industry-leading** typing comfort
- **Improved thermal cooling** for quiet, uninterrupted productivity and better performance

Designed to engage

Work the way you want

Improved speed and performance to help you get it all done. Redesigned from the inside out for improved speed and performance with the latest 10th Gen Intel® Core™ Processor, improved graphics, and up to 32 GB of RAM and 1 TB of storage.¹

All-day battery life up to 11.5 hours² plus improved standby that extends your battery when you're away. When you do need to recharge, Fast Charging powers your battery up to 80% in about an hour.

More ways to connect than before with USB-C™ and USB-A ports for connecting to displays, docking stations, and more, as well as accessory charging.

Seamless video calls, meetings, and voice interactions. Be heard loud and clear whether in conference calls or using voice dictation in Office apps* with enhanced dual far-field Studio Mics. Show up great, even in low light, with the front-facing 720p f2.0 HD camera on video calls in Microsoft Teams.*

Protect data and allow IT to control user access. With BitLocker, discrete TPM chips, and cloud-powered intelligent security with Microsoft Defender Advanced Threat Protection (ATP).³ Secure your data physically with the option to remove your hard drive.
