

State and local government

Transforming public service

Reduced budgets and increasing demand on public services mean that state and local government organizations are under pressure to achieve more with less.

State and local governments everywhere are asked to provide more services with fewer resources. Modernizing your office technology can better position your organization to accommodate this increased demand and optimize your citizen engagement.

State and local governments everywhere are asked to provide more services with fewer resources. Modernizing your office technology can better position your organization to accommodate this increased demand and optimize your citizen engagement.

With the power of a laptop, the mobility of a 2-in-1, the convenience of digital note taking, and best-in-class security, public employees can be more efficient, effective, and responsive.

“Our frontline child protective workers are first responders for New York City’s children, and we have to make sure they have every tool available to do their lifesaving work.”

David A. Hansell
Commissioner, New York City
Administration for Children’s Services

Built for the way you work

Surface devices are intuitive to use, powerful, efficient, and incredibly secure. And because they were designed specifically for the software you trust, they offer a range of benefits for IT:

The best devices for the intelligent workplace

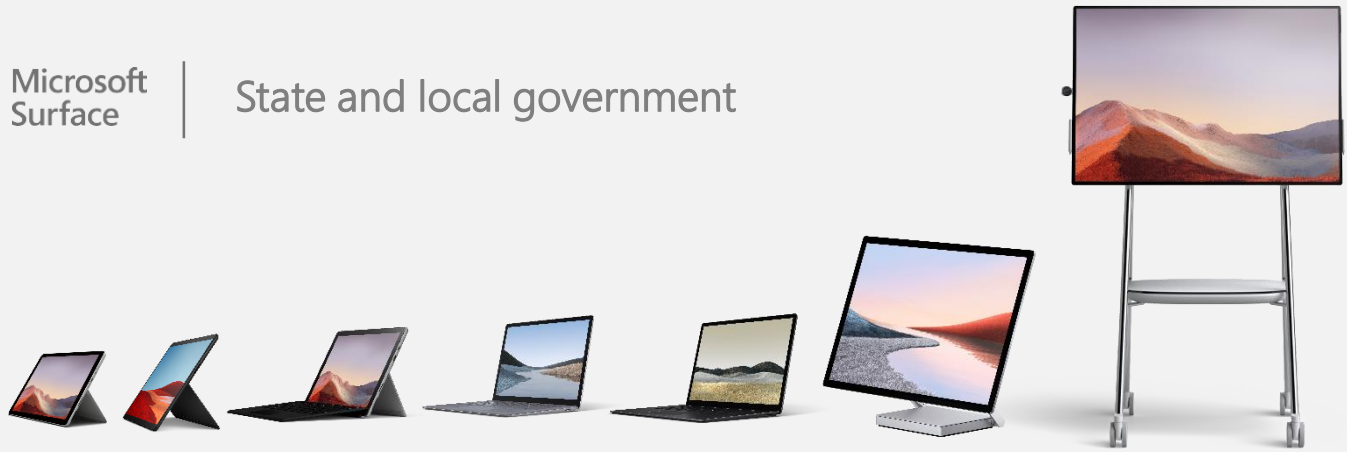

Allow people to do their best work from anywhere, with modern devices that let them connect, collaborate and communicate in new ways.

Leading modern management

The efficiency of cloud-scale remote firmware management through Microsoft Intune.

Enterprise-grade security

Surface devices are equipped with TPM version 2.0, and feature Windows Hello biometric password-free sign-in.

A device for every role

Elected officials, legislative and judiciary staff leveraging Surface Laptop 3

- Collaborate with colleagues using Office co-authoring, OneDrive document sharing, and Microsoft Teams
- Connect to critical displays and peripherals through a single point of connection with Surface Dock*
- Capture notes in public forums and meetings with the Surface Pen*
