

Microsoft Surface business value

Deliver a secure and efficient business platform while providing cost benefits and reducing complexity with Windows-supported Surface devices and Microsoft 365.

Enhance employee engagement

Save people time and increase productivity when they can move seamlessly between individual contributions and collaborative teamwork.

Modernize management and deployment

Deploy and provision new devices faster and get employees up and running in less time, with fewer calls to help desk.

Reduce cost of risk

Reduce costs, increase efficiency for IT and end users, and manage risk with enterprise-grade, modern device security that is built in, not bolted on.

Surface is more than just a device; it's a tool for success. Learn more about Surface business value with our new solution guide.
