

Navigate the evolving frontline work environment

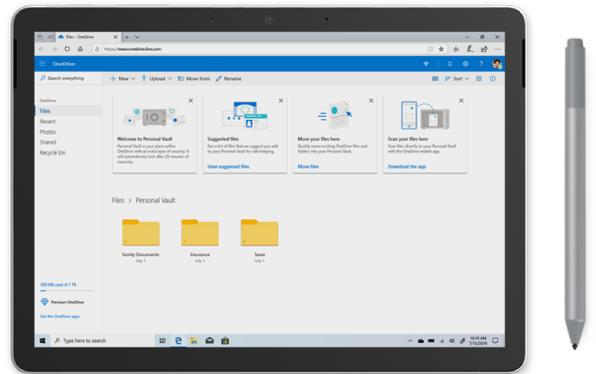

The frontline workforce is facing many changes when it comes to its work environment. These workers interact directly with the general public to provide services like food delivery and physical security, or they could be directly manufacturing and distributing products or services. Give your employees devices that accommodate their specific needs to get the job done.

Give frontline workers access to the right device for their needs

Stay connected in the field with Microsoft Surface.

- The 2-in-1 Surface Go 2, Surface Pro 7+, and Surface Pro X can function as a tablet or laptop for on-the-go workers
- Users interact naturally with a touchscreen, Type Cover keyboard and Surface Pen* when they record orders, take notes and more
- At just 1.2 lbs and 0.33 inches, the lightweight design of Surface Go 2 makes it easy-to-carry for frontline workers
- Accessories are available like ruggedized cases, noise-cancelling earbuds, removable keyboards and docks, including Surface Dock 2.*

Surface Go 2 has standard Wi-Fi with optional LTE**

Secure, zero-touch deployment

Ship Surface devices directly to your employees deployed through Windows Autopilot and managed through Microsoft Endpoint Manager,* while still accommodating your unique company IT requirements. Be assured Surface devices will be delivered to employees with the personalized applications policies and settings required to keep your business running smoothly.

Face the future confidently

Investing in reliable devices for your frontline workforce today can benefit them—and your business—tomorrow. Surface products are secure, adaptable, and designed for whatever comes next.

- Keep devices secure with regular updates via Microsoft Endpoint Manager*
- Restrict access to only the apps and features your business needs
