

Get in the zone

Now that the office can be anywhere, our devices play a bigger role in creating a productive environment. With Microsoft Surface Headphones 2+, users get flexible noise cancelling, intuitive controls, and all-day comfort that help them work the way they want.

Getting into work mode

- **Tune everything out or stay alert** with 13 levels of active noise cancellation.
- **Adjust easily** with on-ear dials and touch-based controls.
- **Stay connected** with enhanced Bluetooth 5.0 or USB.
- **Work in comfort** with lightweight ear cups that rotate 180 degrees for the perfect fit.
- **Keep going** with battery life¹ that won't quit, including up to 15 hours of Microsoft Teams calling.

Leveling up meeting time

- **Take control** with synchronized Microsoft Teams² features that let you mute, answer calls, and more straight from the headset.
- **Feel like you're there** with premium audio quality and robust noise cancelling.
- **Share your thoughts** with the help of 4 noise-cancelling microphones on each ear cup.
- **Speak their language** with 60+ translation options in Microsoft PowerPoint.³

Amplifying productivity with the power of voice^{4,5}

- **Use your voice** with dictation features in Microsoft Word, Outlook, and PowerPoint.
- **Help others follow** along with live captioning in Microsoft PowerPoint.
- **Go hands free with** Outlook Read My Email, Edge Read Aloud, and PowerPoint Presenter Coach.

Help your teams find their focus today with Surface Headphones 2+

When a business chooses Surface, they gain more than just a device—they gain a strategic enabler for their success. Surface devices with Microsoft 365 deliver an optimized, scalable, and secured business solution that can deliver cost savings and business benefits across employee productivity, device deployment and management and security from device to cloud.

¹ Battery life depends on device settings, environment, usage, and many other factors.

² Surface Headphones 2+ require use of the included Microsoft Surface USB Link to achieve Microsoft Teams certification, only available on Windows and macOS.

³ Voice calling testing conducted by Microsoft in Feb 2021 using prerelease Surface Headphones + Dongle package with prerelease software. The dongle was plugged into Surface Laptop 3 and/or Surface Pro 7. Volume was set to 52% with maximum noise cancellation. Bluetooth Hands-Free profile was used. Testing consisted of full Surface Headphones 2+ battery life testing with a Microsoft Teams call until the Surface Headphones 2+ were disconnected from the host device. Battery life depends on device settings, environment, usage, and many other factors

⁴ Software license required for some features. Sold separately.

⁵ Find out more about Surface Headphones 2+ voice interactions with Microsoft 365 apps. Voice controls vary by operating system.
