

Paired for productivity

“The office” is no longer a fixed space, but rather wherever your employees happen to be at any given time. Having the right devices can make a big difference. New Microsoft Surface Laptop 4 brings power and security for the realities of working from anywhere. And our new Surface Headphones 2+ are certified to work with Microsoft Teams, with flexible noise cancelling, intuitive controls, and all-day comfort that helps your team find focus no matter where their office is.

Surface Laptop 4 Work better from anywhere.

For IT teams

- **Simplify security** with removable SSD¹ and Surface TPM theft protections.
- **Speed up onboarding** with zero-touch deployment and unified management.
- **Extend the lifespan** of your devices with Microsoft Protection Plans, which can help you maximize your investment in Surface.
- **Optimize compatibility** with Windows 10 and Microsoft 365.

For employees

- **Power through tasks** with the latest AMD Ryzen™ Surface Edition and 11th Gen Intel® Core™ processors.
- **Collaborate flawlessly** with the low-light 720 HD front-facing camera, dual far-field studio mics, and immersive Dolby® Atmos Omnisonic speakers.
- **Stay productive** with all-day battery life² and ultrafast charging.
- **Connect easily** with USB-C and USB-A ports, large glass trackpad, and crisp touchscreen PixelSense display.
- **Commute effortlessly** with an ultra-slim and lightweight design.

Surface Headphones 2+ Focus on what matters

For IT teams

- **Reassign headsets** easily with replaceable earpads and dongles.
- **Supercharge functionality** with Microsoft Teams Certified³ controls.
- **Connect seamlessly** with USB or Bluetooth across Windows, Android, iOS, and more.

For employees

- **Customize your experience** with 13 levels of Active Noise Cancelling.
- **Get in the zone** with extensive battery life.²
- **Be heard clearly** with 4 noise-cancelling microphones on each ear cup.
- **Multitask faster** with intuitive Microsoft Teams³ controls.
- **Work in comfort** with lightweight ear cups that rotate 180 degrees for the perfect fit.

When a business chooses Surface, they gain more than just a device—they gain a strategic enabler for their success. Surface devices with Microsoft 365 deliver an optimized, scalable, and secured business solution that can deliver cost savings and business benefits across employee productivity as well as device deployment, management, and security from device to cloud.

With Surface Laptop 4 and Surface Headphones 2+ together, you can equip everyone for the flexibility and agility of the hybrid workplace. See how you can help your teams accomplish more and stress less with devices that rise to the occasion.
