

# Surface Laptop Go for Education

Empower students and teachers with a laptop they'll love

## Powerful and portable.

Surface Laptop Go is powerful enough to efficiently run essential apps and portable enough to carry between home and school. Provide students and teachers with a device that fits perfectly in both the classroom and the home office.

- Long-lasting battery life<sup>1</sup> and fast charging<sup>2</sup> to get everyone through the entire school day
- Lighter than a textbook at just 2.4 pounds—one of the lightest items in a student's backpack
- Stylish, durable design with 10-point touchscreen

## Perfect for creating or collaborating.

Enable students to tackle homework of all kinds, with the touchscreen for more interactive engagement. Equip teachers to work remotely and take confidence in high-quality video and audio during class sessions. Empower everyone to make the most of the Microsoft 365 Education suite.\*

- Touchscreen for circling or highlighting notes, easily scrolling, and more
- HD camera to capture every student clearly in virtual classes
- Omnisonic speakers and Studio Mics to give everyone in the digital classroom a voice

## Affordable and highly secure.

Teachers need a high-quality device to stay productive all day. Students are more engaged by devices that encourage creativity. A device like that shouldn't come at an intimidating price, and Laptop Go is ideal for users with limited budgets.

- High value to help increase device access and equity
- One-click management to help ensure security remotely
- Zero-touch remote deployment to ease the IT burden

## For more information about Surface Laptop Go

[www.microsoft.com/surface/business/surface-laptop-go](https://www.microsoft.com/surface/business/surface-laptop-go)

<sup>1</sup> Surface Laptop Go battery life: Up to 13 hours of battery life based on typical Surface device usage. Testing conducted by Microsoft in September 2020 using preproduction software and preproduction configurations of Surface Laptop Go Intel® Core™ i5, 128GB, 8 GB RAM Microsoft Surface® Edition devices. Testing consisted of full battery discharge with a mixture of active use and modern standby. The active use portion consists of (1) a web browsing test accessing 8 popular websites over multiple open tabs, (2) a productivity test utilizing Microsoft Word, PowerPoint, Excel and Outlook, and (3) a portion of time with the device in use with idle applications. All settings were default except screen brightness was set to 150nits with Auto-Brightness disabled. Wi-Fi was connected to a network. Battery life varies significantly with settings, usage and other factors.

<sup>2</sup> Go from low battery to full fast — 80% in just over an hour. Testing conducted at Microsoft in September 2020 using pre-production devices and Software. Tested with the inbox SurfLink 39W PSU under controlled conditions with device in hibernate or off state. Device was powered on to desktop screen with default display brightness settings. Actual charge time will vary based on operating conditions. Measured at typical office ambient temperature of 23C.

<sup>3</sup> Surface Laptop Go display has rounded corners within a standard rectangle. When measured as a standard rectangular shape the screen is 12.45" diagonally (actual viewable area is less).

<sup>4</sup> System software and updates use significant storage space. Available storage is subject to change based on system software updates and apps usage. 1 GB= 1 billion bytes. See Surface.com/Storage for more details.

<sup>5</sup> Available colors vary by market.

<sup>6</sup> Microsoft's Limited Warranty is in addition to your consumer law rights.
