

# Surface Sustainability

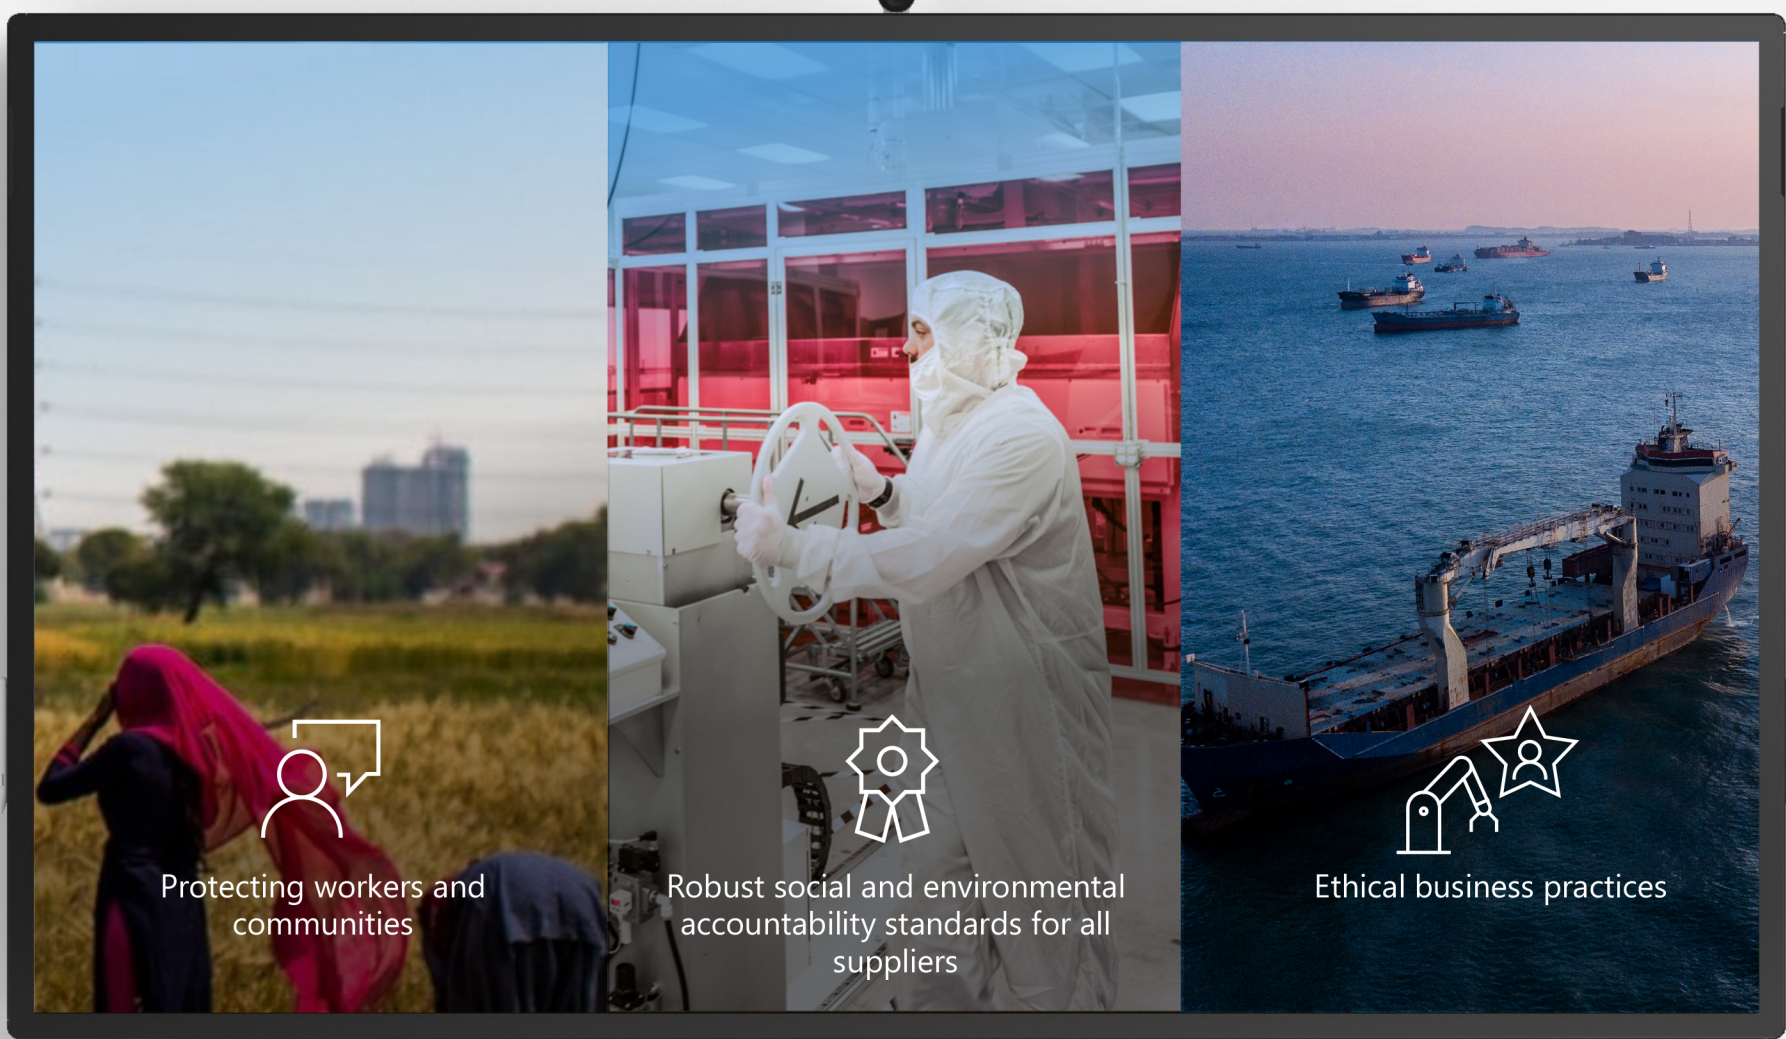

Together, we can build a more sustainable future, harnessing the **power of technology**. We make devices that can help your company reduce its environmental footprint.

## Harnessing the power of technology

## Responsible sourcing

## Design for good

- Publish Surface Eco Profiles
- By 2025, eliminate single-use plastics in packaging
- Recycled ocean plastics used in new products
- Already: Surface Dock 2 is 20% postconsumer recycled materials

## Peace of mind with Surface

- Helps meet corporate sustainability obligations
- Responsible design, sourcing and manufacturing
- Working together to reduce our impact on the planet

Surface devices have **integrity built-in** so you can buy with **confidence**, knowing they are sourced and made **responsibly** to help minimise **impact** on people and the planet.
