

Tools to help improve hybrid care? You're on.

Explore new accessories certified for Microsoft Teams

Driven by improved patient outcomes, healthcare is at the leading edge of the hybrid workplace—from delivering remote care and telemedicine to virtual collaboration between specialists across the globe. Maximizing flexibility, increased precision, and closer collaboration of hybrid care requires the combined power of a laptop, a desktop, and a tablet—all at once. Ensure clear, reliable, and accurate remote communications throughout your facilities—and across the globe.

Explore the suite of accessories certified for Microsoft Teams designed for the way you deliver care now.

Accessories not shown to scale.

Better communication to help improve care.

For effective collaboration, you need to be on at the right times—both heard and seen. Clear and easy mute buttons, simple privacy settings, and crisp video highlight the details while reducing distractions.

Concentrate

Minimize interruptions to maximize concentration.

Create

Discover new ways to improve processes.

Connect
