# What does it take to succeed
in a hybrid work environment?

The pandemic accelerated digital transformation and emphasized the benefits of transitioning to the cloud.

53% of workers are expected to be **remote** or to work a **hybrid schedule** post-pandemic.[1]

But creating a collaborative, seamless, and security-enabled hybrid work environment is challenging:

60% of people say they feel **less connected** to their team after shifting to remote work.[2]

59% of organizations allow employees to use their own devices for work, which can **complicate endpoint management** for IT.[3]

27% of enterprise mobile endpoints were **exposed to device threats** in 2019.[4]

Transition to the Microsoft Cloud with Microsoft Surface for Business devices and Microsoft 365 to boost productivity, strengthen security, and streamline management.

Support hybrid workers to do their best work anywhere.

Boost productivity

Strengthen security

Simplify management

Collaborate and connect with cloud-built Microsoft 365.

Provide security from all angles: protection, compliance, and management.

Control every connected device with a few clicks.

Surface users saved an average of **10 hours weekly** in efficiency and productivity.[5]

51% of enterprises ranked the security benefits of Surface devices with Microsoft 365 as the top feature.[5]

24% less time is spent deploying and managing new software.[5]

Learn more about what **Microsoft 365** and **Surface devices** can do for you.
