

Designed for work. Optimized for finance.

“Thanks to the touchscreen capabilities on Microsoft Surface Pro, we were able to go paperless in our customer engagements. The customer experience is modern and seamless. Plus, we are reducing our carbon footprint and enjoying greater cost savings.”

Kyung Hee Jeong – Senior Manager, [KDB](#) Hanam Branch

As a result of the pandemic, KDB had to quickly shift to remote work policies. With Surface Pro, its employees were able to work from home right away and remained productive with no disruption to regular business communications. Surface Pro has also been implemented in the bank branches.

“We have found an integrated solution out of the box that I can easily introduce to my staff and maintain with a small IT team. Equipped with Microsoft 365, the Surface Pro 8 gives us access to technology that we can use to streamline our daily operations.”

Khaled Althemali –
IT Director,
[Awqaf Investment](#)

“I love the Microsoft Surface Go 2. I love the fact that it’s small and it’s light and I can unplug it and take it into the office with me or I can unplug it and sit on my sofa on a video call.”

Michelle Barnett – Service
Relationship Manager, [Direct Line](#)

“[Before] it would take days to get a new machine. [Now with Surface, Intune and Autopilot] We were able to refresh our whole enterprise in the last year, remotely.”

Perry Pao – Head of IT
Operations and Infrastructure,
