

Surface for Government

The changing workplace of Government

Serving user and citizen needs in the hybrid working world

Support end user productivity
for hybrid work

Transform core processes to
better serve citizens

Deploy, manage, and stay
secure anywhere

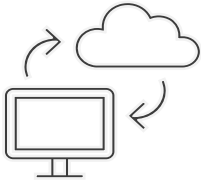

Surface is built for hybrid work

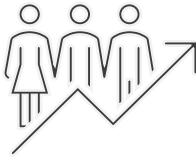

Security

Security from **chip-to-cloud**— a zero-trust security model that starts with Surface devices²

Deployment & Management

Zero-touch deployment and unified management reduce costs and complexity for a distributed workforce¹

Productivity

Flexible, premium devices for innovative citizen service processes, demanding analysis, and easy collaboration

Surface portfolio

2-in-1s

Versatile Tablet + Laptop devices that provide mobile productivity for workers on the go.

Best for: First responders; inspectors, auditors, field case workers

Laptops

All the power of a static desktop in a sleek, modern form factors built for hybrid and remote workers.

Best for: Executives, analysts, Judiciary, Legislators, Treasurers and staff, developers

Large screens

A family of devices that revolutionized a new category of computing focused on flexibility, collaboration, and mobility.

Best for: Hybrid meetings, City Planners, Govt. Officials, and Police & Fire Commanders

Go 4

The **smallest, lightest Surface** with touch and ink capacitive PixelSense™ display

Pro 8

The iconic Surface 2-in-1 that is **ultra-light and versatile** with LTE Advanced Connectivity

Pro 9

Get tablet flexibility and laptop performance, with your choice of Intel® Evo™¹ or Microsoft SQ® 3 with 5G²

Laptop Go 3

Exceptional value for the style, performance, and battery life expected from Surface

Laptop 5

Sleek, lightweight, touchscreen laptop with the **style, speed, and performance** to do it all

Laptop Studio 2

Our most powerful Surface laptop delivers speed, graphics and versatility to run business-critical applications

Studio 2+

Professional-grade performance on a versatile **all-in-one device** with strikingly large touchscreen

Hub 3

Enable teamwork anywhere with this Microsoft Teams-certified meetings platform and modern collaborative canvas

Images not to scale

Designed for work. Optimized for government.

“We piloted the devices with our technology champions across the organisation, so we had a view from our user base – and Microsoft Surfaces were the preferred devices.”

Sarah Moore – IT Transformation Manager, [Somerset County Council](#)

Somerset County Council initiated a Technology and People programme to enable a more modern and productive workforce and, as part of this, chose to invest in Microsoft Surface devices. Through the pandemic lockdowns, it became one of the first councils to benefit from Microsoft's Windows Autopilot for pre-provisioned deployment service, streamlining and automating the distribution, provision and management of devices for remote workers. The council also chose Surface devices for security, assistive technology, quality of components, and sustainability.

“Every officer has got their Microsoft Surface tablet and a mobile phone. With our use of Microsoft 365, the Azure platform and what we've got in there, we're delivering on the agility and mobility piece. We're going on that journey with Microsoft, to make sure that our officers have got the right frontline information in front of them when they need it.”

Andy Robson – Head of IT,
[Cheshire Constabulary](#)

“Using the Surface Hub is faster, it's slicker; we can draw our search plans on there, rotate the map, put it in 3D. It allows us to keep a good focus on the incident. It's more accurate at a time that there's not much room for error.”

Aimee Rampton – Maritime Operations Controller,
[Maritime and Coastguard Agency](#)
