Designed for work. Optimized for legal.

“Consistency and reliability are essential for our people’s productivity, and we like that Surface Pro 7 devices behave the same whether in the office, at home, or at a client site. We’ve transformed our workplace with Surface Pro 7 because we know our staff have what they need to work, wherever they are.”

Andrew Powell – Chief Information Officer, [Macfarlanes](#)

Macfarlanes needed to increase its staff’s digital agility and mobility while maintaining the same reliable, durable, and high-performance experience they got from their desktop computers. The firm decided to purchase Surface Pro 7 devices for its staff. It also renewed its Microsoft 365 licensing agreement so that everyone had access to the range of business applications and security features that enable a digital workforce.

MACFARLANES

“Microsoft Surface complimented our strategy and was the device of choice to support our Positive, Passionate, People. The product is very good – in style, different ways of working and real performance – and it gives our staff the agility and freedom to work in a way that suits their lives whilst maximizing productivity and effectiveness.”

Dal Virdi – IT Director, [Shakespeare Martineau](#)

Shakespeare Martineau is now offering all staff a much more versatile range of mobile solutions across the Surface Book, Laptop and Pro lines. The options for docks, detachable screens, digital pens are appreciated by users and have made it easy for associates to work from home. The Surface devices also supported the transition to Microsoft 365, including Teams and Visio. For a Shakespeare Martineau, client confidentiality is key, and enabling users to use Teams for meetings is greatly appreciated by clients.
