

Surface for Nonprofit

The changing workplace of Nonprofit

Serving organizational needs in the hybrid working world

Support staff productivity
for hybrid work

Digitally transform core processes
to better serve the mission

Deploy, manage, and stay
secure anywhere

Surface is built to help you deliver effective programming and accelerate mission outcomes

Security

Security from **chip-to-cloud**—a zero-trust security model that starts with Surface devices²

Deployment & Management

Zero-touch deployment and unified management reduce costs and complexity for a distributed workforce¹

Productivity

Flexible, premium devices for innovative processes, demanding analysis, and easy collaboration with donors and supporters

Sustainability

Devices designed at aiming to reduce carbon impact and waste, and built with integrity built in³

Microsoft Surface sustainability progress

Reducing carbon impact

Low carbon product design

Our [Life Cycle Assessment](#) has estimated a 30% reduction in total carbon emissions for Surface Laptop Studio versus its predecessor Surface Book 13”.

Supply chain emission reductions

Microsoft is balancing environmental concerns and customer needs in manufacturing and transportation by incentivizing Microsoft suppliers to reduce their emissions.

Energy efficiency

All Surface laptop and tablet devices are ENERGY STAR certified with a focus towards energy efficiency and battery life.

Designing with circularity in mind

Repairability

Repairability and serviceability can extend the lifespan of our devices by enabling enterprises to fix common hardware issues themselves.

Reusable, refurbishable, and recyclable

By 2025, our goal is for our packaging to contain zero single-use plastics and by 2030 will be 100% recyclable. We also make recycling convenient and secure with [global recycling programs](#)¹ and data-wiping.

Designed with recycled materials

Surface continues to innovate with the introduction of recycled materials into our product design.

Integrity built in

EPEAT rating¹

Microsoft Surface has achieved the highest possible rating², EPEAT Gold, for all of our newest generation laptops and tablets in 30 countries, including the US and Canada.

Transparency to impact

To increase transparency for customers and stakeholders, we publish LCA results that are contained in our [Eco Profiles](#), plus information about the product’s material composition, energy consumption, packaging, ecolabels, product recycling, and more.

Reduction of hazardous materials

Microsoft ensures worldwide compliance for all hardware programs by restricting hazardous substances contained in our Devices.

Responsibly made

At Microsoft, we have the tremendous opportunity to work with thousands of suppliers in over 100 countries across the globe. To learn more about our responsibilities, you can read the Supplies Code of Conduct (SCoC) [here](#).

Industry-leading security

Microsoft security at every level

Every layer of Surface from chip to cloud is maintained by Microsoft, giving you ultimate control, proactive protection, and peace of mind wherever and however work gets done.

Designed and built with supply chain security in mind

Surface takes an end-to-end approach to security by incorporating industry standard security controls and risk management methods in the supply chain.

Surface enables powerful Windows security by default

The new set of hardware security requirements that comes with Windows 11 is designed to build a foundation that is even stronger and more resilient to attacks.

Microsoft-built UEFI

Unified Extensible Firmware Interface (UEFI)¹ is built by Microsoft and included in Surface devices. Since Microsoft owns our own UEFI, we are in a unique position to respond to security threats quickly and push firmware updates seamlessly via Windows update.

Ultimate control with remote device management

Zero-touch deployment with Windows Autopilot

Deploy faster and more securely with Windows Autopilot across the globe in Microsoft Endpoint Manager*.

Seamless device management with Microsoft Endpoint Manager

Easily manage devices in one location, roll out both firmware and software patches via Windows Update and make sure devices are always up to date—automatically even while asleep.

Help ensure highly classified data remains protected from spying, keeping your environment more secure

Surface can be managed at the firmware level, meaning capabilities like the camera can be turned off for any device in highly secure areas.

Centralized solution to monitor health and obtain helpful insights

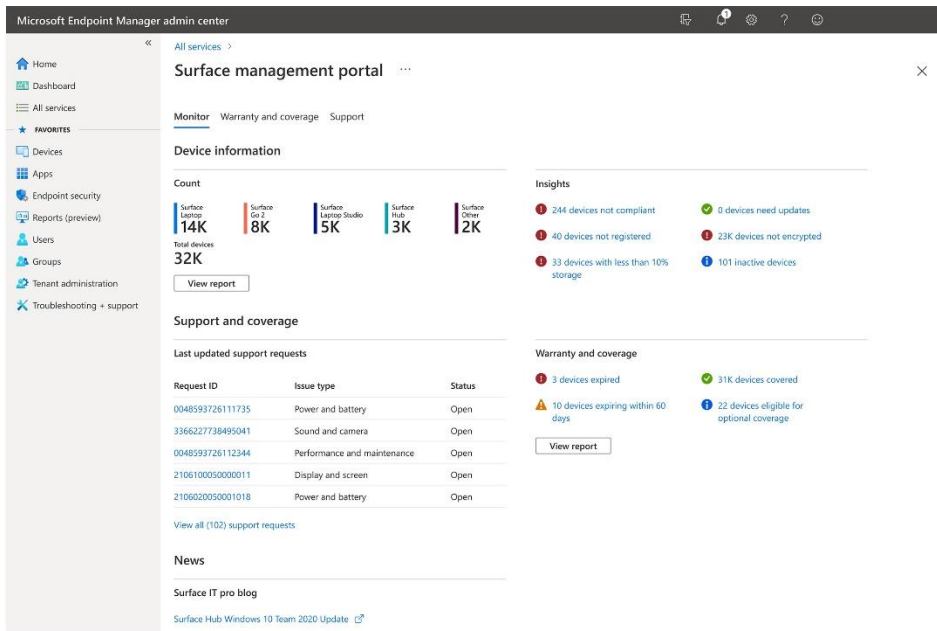

Monitor health and view helpful insights of all Surface device in one centralized view with Surface Management Portal.

Microsoft Surface Management Portal

An elevated Surface experience

Surface Management Portal* is a centralized solution for IT administrators to self-serve, manage, and monitor Surface devices at scale in Microsoft Endpoint Manager.

Reduce IT costs with insights into the health and statuses of all Surface devices.

Self-service efficiently with an easier way to manage warranties and support requests for all Surface devices.

Experience a streamlined management solution with reduced manual work in Microsoft Endpoint Manager.

Support multiple form factors by streamlining management of all Surface devices through Intune and hybrid managed devices.

Receive regular updates to Microsoft Surface Management Portal.

Microsoft Surface and Productivity

Experience the best of Microsoft on Microsoft

Powerful productivity to get it all done wherever you work

Surface devices are designed for flexible work. From running your organization's essential business apps to your enterprise-grade productivity apps such as **Windows 11** and **Microsoft 365**,* Surface devices help you do it all with the latest processors, the RAM and storage you need, extended battery life,¹ and Wi-Fi and optional LTE Advanced² or 5G⁴ connectivity.

Connect with your teams to collaborate anywhere

Surface devices are designed to bring out the best of software experiences. With high-end cameras and quality microphones and speakers, you can look and sound your best on **Microsoft Teams***. Feel more confident and connected in online meetings with built-in, intelligent AI camera effects on Surface that helps keep the focus on you, such as Voice Focus and Team Background Blur. **Surface Hub 2S**, an all-in-one meeting and collaboration solution certified for Microsoft Teams, brings hybrid teams closer together with a native **Microsoft Teams Rooms*** experience.

Cloud PC on Surface

Connect workforces that are on the go or distributed smoothly and securely. **Windows 365*** and **Azure Virtual Desktop*** balance your employees' need for reliable access to workflows with other business imperatives: security, scalability, portability, business continuity, and modern management.

Nonprofit leadership & teams

Delivering programs and services to better serve the mission

Challenges

Nonprofit directors and support staff face challenges including:

- Managing multiple programs and keeping program teams in sync
- Coordinating with both internal and external resources to determine the best strategy for mission services
- Staying productive when away from the office
- Documenting and storing sensitive donor information securely

Solution

To better serve the mission, leadership and support staff use **Surface Pro 9 and Surface Laptop 5** devices that:

- Run critical nonprofit software and Microsoft 365 apps concurrently
- Provide versatile modes to accommodate various work scenarios
- Help optimize time
- Project a professional image
- Deliver enterprise-grade protection for sensitive data

Marketing teams

Working together to amplify the mission

Challenges

Nonprofit marketers face teamwork challenges including:

- External collaboration with remote staff, colleagues in partner organizations, and mission donors
- Collaborating frequently on strategic plans, budget performance, and program status

Solution

Marketers use a **Surface Laptop Studio** for its power and graphics capabilities when producing promotional assets.

When collaborating with their virtual team, marketers take advantage of a **Surface Hub 2S** device for its:

- Large, high-resolution screen
- Microsoft Teams-certified meetings platform
- High-end cameras, optimized microphones, and quality speakers
- Pen, inking, and whiteboard capabilities
- Lightweight and mobile (with stand and battery)

Day in the life of a Fundraising Manager

Remy is a Fundraising Manager whose organization just refreshed devices to **Microsoft Surface Pro 9 with 5G**

To ensure Fundraiser Managers can better serve the mission, nonprofits use **Surface Pro 9 with 5G** devices for its:

- Premium image
- Lightweight, 2-in-1 design
- Powerful processor
- High-speed 5G
- High-resolution touch screen
- Long-lasting battery
- Secured-core PC
- Ability to maximize Microsoft 365* investment

Surface differentiators

Security

Security from chip-to-cloud—a zero-trust security model that starts with Surface devices⁹

Deployment & Management

Zero-touch deployment and unified management reduce costs and complexity for a distributed workforce¹⁰

Productivity

Flexible, premium devices for innovative mission service processes, demanding analysis, and easy collaboration

Sustainability

Devices designed at aiming to reduce carbon impact and waste, and built with integrity built in¹¹

Surface portfolio

2-in-1s

Versatile Tablet + Laptop devices that provide mobile productivity for workers on the go.

Best for:

Volunteer coordinators, Fundraising managers, volunteers

Laptops

All the power of a static desktop in a sleek, modern form factors built for hybrid and remote workers.

Best for:

Leadership, gift officers, program managers, marketers, developers

Large screens & foldables

A family of devices that revolutionized a new category of computing focused on flexibility, collaboration, and mobility.

Best for:

Marketing teams, mobile workers

Meet the new Surface devices

From 2-in-1 to laptop to full desktop all-in-one

New Surface Pro 9 for Business

Empower flexible, all-day impact with tablet portability and laptop performance. Teams may work apart, but Surface Pro 9 keeps them connected with optional 5G¹, enables work on their terms with built-in security, and delivers the power they need to succeed.

Choose the performance employees need for the work they do with either Intel® Evo™² or Microsoft SQ® 3 with 5G.

New Surface Laptop 5 for Business

Make your impact with a laptop made for this moment. From the way you show up to the way your work stands out, with Surface Laptop 5 by your side you'll see results. Lightning-fast performance, sleek portability, an enhanced camera for more engaging video calls, and built-in security enable impactful work on your terms.

Multitasking speed powered by 12th Gen Intel® Core™ processors, with Windows 11 and a vibrant touchscreen.

New Surface Studio 2+ for Business

Find fuel for inspiration with professional-grade performance on a sleek, versatile all-in-one device that commands attention. Dive into brilliant color, blazing-fast graphics, and immersive video calls. Embrace your workspace and let ideas flow on a stunning, strikingly large 28" PixelSense™ touchscreen with digital pen, flexible transformations, and Windows 11.

Multitasking is a breeze with an 11th Gen Intel® Core™ H-35 Processor. Lead video calls, open large files, and fly through presentations with ease.

Complete the experience

Exceptional accessories* for Surface devices

Surface pens

A variety of pens to suit your needs while using Surface. Perfect for inking from remote collaboration or collecting notes on the job site.

Surface Keyboards and Type Covers

Transform Surface devices from tablets to laptops. Enjoy a full mechanical keyset, fast and fluid typing, and a large glass trackpad for precise navigation.

Surface Adaptive Kit

Introducing a kit that makes it easier to use and navigate your Surface PC. Identify critical keys, match ports and cables, and open your Surface and other compatible devices.

Surface Audio

The smarter way to listen and meet. Music and calls sound spectacular with rich audio, active noise cancellation, and intuitive controls.

Surface Docks and Adapters

Connect, wirelessly project, or stay compatible with existing peripherals using Surface adapters and docks with all the next-gen ports you need to be productive in your workspace or on the go.

NEW Microsoft Presenter+

 Certified for
Microsoft Teams

Confidently deliver engaging presentations and participate in meetings, in person or online, with the push of a button. Effortlessly advance slides, focus audience attention on key content, and quickly mute/unmute.
