

Powerful for employees. Streamlined for ease of use. Secure for all.

Power and performance

With all-day battery life,¹ Surface Pro for Business and Surface Laptop for Business ensure productivity is never compromised, whether annotating documents directly on-screen, delivering high-quality presentations via video calls, or analyzing extensive datasets.

Built for security, designed for trust

Held to the same high standard as all Microsoft services and software, Surface delivers uncompromising chip-to-cloud security, puts ultimate control in your hands, and provides peace of mind wherever and however work gets done.

AI enhanced productivity

Equip your team with AI-enhanced Copilot+ PCs² built exclusively for commercial customers. Boost productivity and creativity with Surface, Microsoft Copilot, and intuitive Copilot+ PC experiences.

Surface Pro for Business

The new Microsoft Surface Pro for Business is the first Copilot+ PC Surface Pro built exclusively for business with Intel® Core™ Ultra Processors (Series 2) delivering 40 or 48 TOPS³ of on-device AI performance and a powerful NPU to amplify your team's intelligence, efficiency, and creativity through Copilot+ PC experiences designed for work. Its ultra-versatile 2-in-1 design, all-day battery life, and optional OLED display offers peak productivity to replace both your tablet and laptop, all backed by Microsoft's enterprise-grade security.

Power meets portability

Surface Pro for Business is a versatile laptop that adapts to your team's needs. Its sleek, portable design with a durable aluminum enclosure makes it easy to stay productive in any location.

- 13" PixelSense™ Flow display with adaptive color and contrast and 120Hz dynamic refresh rate
- Quad HD front-facing Surface Studio Camera with ultrawide field of view and support for Windows Studio Effects with automatic framing, eye contact, portrait blur and background blue
- Use Slim Pen to take notes and sketch ideas with the same feeling you get with a traditional pen⁴

Surface Laptop for Business

The new Microsoft Surface Laptop for Business is the first Copilot+ PC Surface Laptop built exclusively for business with Intel® Core™ Ultra processors (Series 2) delivering 40 or 48 TOPS of on-device AI performance and a powerful NPU that amplifies your team's intelligence, efficiency, and creativity through Copilot+ PC AI experiences designed for work. Its uncompromising performance, all-day battery life and reimagined lightweight design with essential business features like anti-reflective touchscreen, more ports like optional smart card reader (optional on 15" only) helps your teams deliver results from anywhere, all backed by Microsoft's enterprise-grade security.

Uncompromising power and performance

Surface Laptop for Business empowers your team to tackle intensive tasks effortlessly, from seamless multitasking across multiple monitors to managing complex computations.

- Choose between sleek 13.8" for seamless portability for on-the-go employees, or the expansive 15"
- Full HD front-facing Surface Studio Camera and support for Windows Studio Effects with automatic framing, eye contact, portrait blur and background blur Windows Hello face authentication camera
- High-resolution PixelSense™ Flow display that supports multi-touch gestures, providing a responsive and intuitive touch experience with Windows 11 Pro

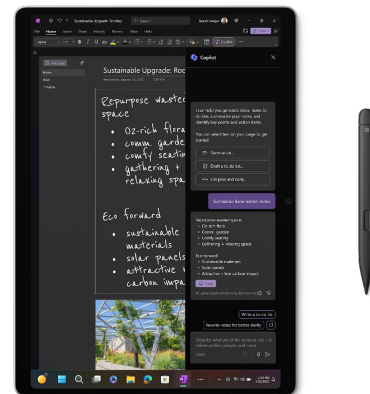

With the right tools, everyone achieves

Surface devices take advantage of seamless hardware and software symmetry with features that remove boundaries around how work happens, empowering your business.

Employees | Unlocking your team's full potential

Help alleviate workloads and keep people productive where, when, and how they work with dynamic experiences, including AI.

- Enhance collaboration with AI-capabilities on AI and Copilot+ PCs⁵
- On-device AI with Windows 11 Pro
- Supercharge your work and minimize downtime
- Switch seamlessly from touch to type
- Bring ideas to life with cutting-edge graphics

IT | Security and management without sacrificing innovation

Simplify security and reduce IT overhead for your business by efficiently and securely managing devices in the cloud.

Security

- Get powerful Windows 11 security by default
- Stay protected with encrypted security at every layer
- Offer a front line of defense with Zero Trust built in

Management

- Deploy devices your way with modern tools like Windows Autopilot, designed to reduce IT complexity with cloud-based device deployment and management⁶
- Reduce device management time and repairs⁷

Business | Efficient and future-ready

Fuel business resilience to minimize disruptions, increase employee satisfaction, and adapt to change.

- Access familiar tools easily
- Gain comprehensive chip-to-cloud security
- Come built-ready for AI innovation
- Give employees multiple form factors in one device
- Simplify reparability and costs

When decision makers choose Surface, they're extending what's possible for their people and their small business.

¹Based on video playback test. Battery life varies significantly based on device configuration, usage, network and feature configuration, signal strength, settings and other factors. See aka.ms/SurfaceBatteryPerformance for details.

²On some devices, Copilot+ PC experiences require free updates available into 2025. Timing varies by device and region - aka.ms/copilotpluspcs

³Intel® AI Boost with 48 TOPS on Intel® Core™ Ultra 7 processor 266V and Intel® Core™ Ultra 7 processor 268V.

⁴Sold separately. Software license required for some features.

⁵Surface AI PCs include Surface Pro 10, Surface Laptop 6, Surface Pro 9 with 5G, Surface Pro (11th Edition), a Copilot+ PC, and Surface Laptop (7th Edition), a Copilot+ PC.

⁶Microsoft Intune and Azure Active Directory required; sold separately.

⁷Based on Microsoft-commissioned assessment of greenhouse gas emissions and waste impacts prepared by Oakdene Hollins in April 2022 comparing device replacement to factory repair and Microsoft ASP repair.
