

TAA PanaCast U30

A big meeting experience for small rooms.

Premium **TAA-compliant BYOD** video bar for U.S. Federal agencies and public sector organizations. Rooms up to 6 people, deployable in minutes.

Small-room meetings shouldn't start with confusion.

The Jabra PanaCast U30 is a BYOD video bar for U.S. Federal and public sector agencies that need secure, reliable meeting experiences without added IT burden.

One USB-C cable. A simple, consistent start. No black screens. No wasted minutes.

For rooms of up to six people, the U30 combines 4K wide-angle video, six-microphone full-duplex audio, and hardened Android 13 security in a compact bar that is fast to deploy, easy to manage, and built to scale.

So every small room is ready when people walk in.

SECURITY & COMPLIANCE

- **TAA Compliant** – Aligns with U.S. Federal procurement standards and approved purchasing paths.
- **Hardened Android 13** – Secure Boot, OS verified boot & vendor lockdown prevent unauthorized access.
- **Air-Gap / Offline** – Local firmware & HTTPS console — zero cloud dependency required.
- **Admin Controls** – Password enforcement, device lockdown & log retrieval via Jabra Plus.

DEPLOYMENT & MANAGEMENT

- **Fast Installation** – Integrated hinge & included wall mount — box to meeting-ready in minutes.
- **Flexible Mounting** – Wall mount (in-box), VESA screen mount, or Jabra Table Stand accessories.
- **Remote Fleet Management** – Jabra Plus: health monitoring, diagnostics & firmware push across all sites.
- **Offline Update Path** – Full local update path for finance, defense and high-security environments.
