

Eaton gets IT – in every environment

Security solutions

Reinforce your security and other IT infrastructure with reliable power and connectivity solutions.

Wall-mount racks

Efficiently store IT hardware and rack-mount AV equipment. DVR lockboxes protect against damage, tampering or theft.

Display mounts

Mount flat-screen displays and tablets on a wall. Floor-stand and desktop tablet mounts are also available.

Surge protectors

Safeguard electronics against damaging surges, spikes and line noise.*

UPS systems

Provide battery backup to equipment during power outages to prevent downtime and protect data.

Wi-Fi enclosures

Keep wireless access points discreet and protected against theft, damage and tampering.

Charging stations

Charge, secure and organize up to 48 laptops and tablets in a mobile cart or stationary cabinet.*

PoE solutions

Power over Ethernet switches, midspans and cabling power network devices with more flexibility and fewer costs than standard electrical runs.

Extenders

Extend an AV or USB signal from the back office to a front office, customer space or production area. PoE models available.

HDMI cabling

Connect high-definition video and audio sources to HD TVs and other displays.*

Ethernet cabling

Connect network equipment with up to 10G speeds and shielding, slim design and snagless connector options.*

*To promote healthier environments, Safe-IT™ antimicrobial and antibacterial options are available for select models.
