What did Adrian say about Q3 market forecast?

The Q3 2025 market forecast shows a strong upward trajectory, fueled by rising consumer spending and innovations in technology. Experts anticipate a 5% growth rate in the tech sector, particularly with e-commerce at the forefront. Moreover, areas like artificial intelligence and cloud computing are poised for substantial investments, highlighting a trend towards digital transformation.

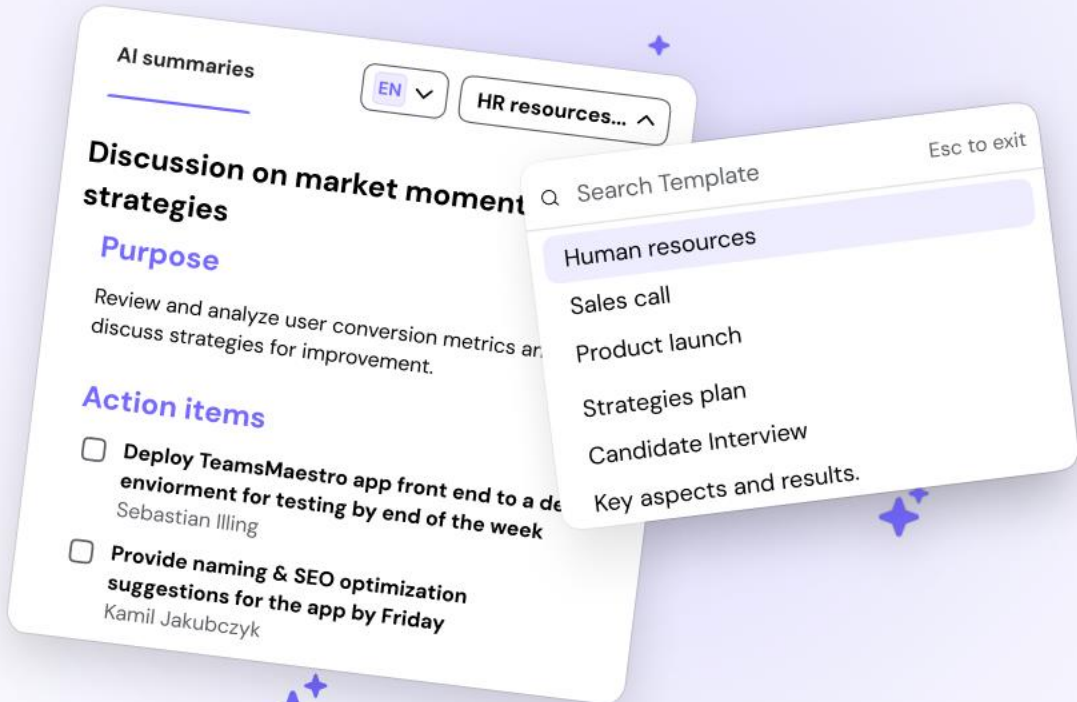

In summary, the outlook for Q3 is bright, as companies prepare to seize new opportunities.

It's impressive to see how quickly the product has grown over the past few weeks,
It's about to be one of the leading products in Microsoft AppSource.

AC **Adrian** 4:18

We believe we're going to have a really good quarter, considering what we have on the road map and how quickly the dev team has been developing so far.

SE **Seb** 4:21

Great job indeed! 🙌
