

# Lenovo TruScale for VDI

Power your next-gen Data center

Keep business running  
with a mobile workforce.

It's time to make remote working simple, secure and more reliable for your users. Lenovo TruScale for VDI (virtual desktop infrastructure) gives employees a responsive remote desktop they can work at anywhere.

Fully tested across applications, software, hardware, and services, our solutions help streamline IT administration and simplify implementation.

Lenovo

# How to deliver the best remote working experience with VDI

Lenovo client virtualization solutions help address remote access to employees with a range of virtual desktop and virtual application offerings using industry-proven Lenovo hardware combined with software from VMware®. Fully tested across applications, software, hardware, and services, our solutions help streamline IT administration and simplify implementation.

Our solutions provide:

-  Simplified desktop administration, support, and management
-  Enhanced security and compliance management  
Improved availability and reliability
-  Flexibility for users to work anytime and anywhere regardless of device
-  Support for office productivity through business-critical applications

## Lenovo TruScale Benefits

**Scale up & Scale down. Pay as you grow.**  
Charged by the number of VDI Nodes  
Deployed and not by Nodes Solutioned

**Round the clock 24/7 Support.**  
Ensure the infra is always on,  
always updated and always ready

**Predictable costs.**  
Fixed monthly charges.  
Reduce up-front investment and  
align costs with business outcomes

Microsoft licenses are not included. Customer can leverage their existing EA or add new Microsoft licenses to the setup (E.g. Windows, RDS CAL, and SQL).  
The monthly cost does not include a Onetime Installation cost.  
60-month contract  
Pricing based on VMware Horizon 7. Other versions available on request.

When choosing a remote working solution partner, consider Lenovo if you value:

1. **Having a validated, tailored solution:** We offer pre-engineered solutions tailored to your specific business needs
2. **A broader choice of software:** Lenovo has co-engineered solutions with a range of VDI software leaders
3. **Performance and reliability:** ThinkSystem servers are #1 for reliability and lead in 154 benchmarks
4. **Real partnership:** We work with you to understand your challenges and configure your best-fit solution

## IMPROVE OVERALL SECURITY AND COMPLIANCE

Provide access to company data without natively storing on the client devices.

## CENTRALIZED MANAGEMENT

Install new applications, manage updates and add/remove users from a single dashboard.

## ENABLE A MOBILE WORKFORCE

Provide users access to their applications and data anywhere, any time, and from any device.
