Verizon Response Solutions for Public Safety
Helping Maximize Effectiveness And Lower Operating Costs

Communication & Collaboration for Public Safety

Verizon and Zebra's Communications & Collaboration solutions help enable a more informed field workforce, for both routine operations and emergency response. First Responders and others performing critical operations need to communicate with fellow squad/crew members, incident commanders, and command center staff to coordinate work-flows. Purpose-built design helps enable reliable communications in challenging environments and under demanding conditions. Whether it be secure messaging, phone calls, Push-to-Talk or sharing of tactical plans via digital white-boarding, responders can rely on Zebra solutions to take the next best action in dealing with crimes in progress, fires and hazardous incidents, natural disasters and other emergency situations.

Zebra offers a broad purpose-built portfolio of first responder devices in the public safety market. The solutions include mobile computers, tablets and printers that empower front-line personnel by helping enhance communications, streamline workflows and provide maximum operational awareness to improve critical decision making.

Get Up and Running Faster with Zebra Verizon Devices

Zebra rugged tablets and mobile computers are "Verizon Ready". This means they support Verizon's Private Network Traffic Management (PNTM) which enables priority service features that are critical for first responders. Zebra's devices are designed and tested to stand up to the common needs of first responders and will work on the Verizon network by simply installing a Verizon SIM card.

Zebra TC57 | Mobile Computer

The Zebra TC57 is a Verizon's Response Solutions device* with control, visibility, and security enabled by the Zebra Mobility DNA ecosystem. The TC57 features rugged construction and ergonomic design: IP68 sealing, MIL-STD-810G, 4 + 4 lifecycle, multiple programmable buttons including Push-to-Talk and scanning. Advanced scanning technology and PRZM Intelligent Imaging results in optimal capture of printed and electronic 1D and 2D barcodes. Powered by a long life, end-user removable, PowerPrecision+ battery with warm swap capability and supported by a large selection of accessories, Zebra's OneCare services, and extensive partner network.

Zebra TC77 | Mobile Computer

This Verizon's Response Solutions device* provides control, visibility, and security enabled by the Zebra Mobility DNA ecosystem. With ultra-rugged construction and ergonomic design including an 8 ft. drop rating, IP68 sealing, MIL-STD-810G, 5 + 5 lifecycle, multiple programmable buttons and Push-to-Talk and scanning. The TC77's advanced scanning technology and PRZM Intelligent Imaging provide optimal capture of printed and electronic 1D and 2D barcodes and the long life, end-user removable, PowerPrecision+ battery has warm swap capability. Zebra's TC77 Touch Computer is supported by a large selection of accessories, Zebra's OneCare services, and extensive partner network.

Zebra L10 | Windows® 10 Pro or Android™ Rugged Tablet*

Available in XPAD, XSLATE, and 2-in-1 XBOOK form factors, to assure you have the right tool for the job. Rugged performance with MIL-STD-810G, IP65 and extended-life, hot-swappable batteries assures uninterrupted productivity. Five pass-through antennas provide exceptional in-vehicle coverage and available 1000 nit View Anywhere™ display with active digitizer pen option provide an ultra-bright outdoor viewing experience, night vision mode for low light performance as well as wet and glove touch modes. The L10 series rugged tablets boast powerful 8th Generation Intel Core™-Series processors and removable PCIe solid-state drives (SSD). Additional features include government-mandated security with advanced encryption, FIPS140-2 validation, multi-factor authentication, TPM 2.0, TAA, CJIS compliance, and HIPAA compliance. The L10 series is equipped with a fingerprint scanner, and optional smart card/CAC reader, bar code reader, and RFID reader modules, and are supported by a large selection of accessories, Zebra's OneCare services, and extensive partner network.

Zebra XSLATE R12 | Windows® 10 Pro Rugged Tablet*

The XSLATE R12 is the only computer you need. From the field to the vehicle to the office, with always-ready, never in the way magnetically attachable keyboard, vehicle docking, and office docking solutions. The XSLATE R12 features a bright 12.5" View Anywhere™ display, with easy-to-use touch, pen, voice, and camera inputs. Pass-through antennas for exceptional in-vehicle coverage and rugged performance with MIL-STD-810G and IP54 and full shift, hot-swappable batteries assure uninterrupted productivity. Featuring powerful and future-ready with Intel® Core™-Series processors, removable SSD, expansive storage and memory, and GPS the XSLATE R12 also provides government-mandated security with advanced encryption, FIPS140-2 validation, multi-factor authentication, TPM 2.0, TAA, CJIS compliance, and HIPAA compliance. Equipped with a fingerprint scanner and optional bar code reader / RFID reader the XSLATE R12 rugged tablet is supported by a large selection of accessories, Zebra's OneCare services, and extensive partner network.

Zebra ET56 | 8.4" Windows or Android Tablet and 10.1" Windows Tablet*

Built for all day, every day use, this tablet handles rain, snow, dust, extreme heat, subzero temperatures, spilled liquids and even a hose-down at full force. It survives drops from 3.3 ft./1 m to concrete (nearly double that with a rugged frame) and provides control, visibility, and security enabled by the Zebra Mobility DNA ecosystem. The ET56 provides the most advanced data capture — and data capture options and allows you to add the SE4750 scan engine for fast and flawless barcode scanning with Zebra's PRZM Intelligent Imaging technology. Its 13 MP rear camera conveniently document incidents and more. While the 5 MP front facing camera is ideal for video conferencing, enabling on-the-spot help and collaboration. With an unmatched accessory family that includes charging cradles, communications docks, expansion backs with rotating hand straps, and auxiliary powerpacks for all day operation the ET56 is surprisingly lightweight and feels like a consumer tablet yet is ready for use in nearly any environment. The ET56 is supported by Zebra's OneCare services and extensive partner network.
