

ENABLE WORKING FROM HOME WITHOUT COMPROMISING COMFORT WITH THE LOGITECH ERGO SERIES

REMOTE WORKING HAS BECOME THE NEW NORMAL

50% of the North American workforce will now work from home in some capacity

74% of companies plan to permanently shift to more remote work¹

WHICH MEANS IT'S TIME TO GET COMFORTABLE IN THE HOME OFFICE (EVEN IF IT IS A GUEST ROOM, KITCHEN TABLE, OR GARAGE...)

Common WFH compromises...

- Attempting to operate in spaces that weren't designed for work
- Using equipment that can't compete with modern tools in the office
- More time spent sitting still, often in uncomfortable positions
- Sharing spaces or technology with other family members working or learning from home

IT MIGHT NOT BE OBVIOUS, BUT WORKING FROM HOME PUTS YOUR BODY THROUGH A LOT...

1 1, 0 0 0

Keystrokes/day⁴

Every day, heavy computer users will...

4,000 Mouse clicks/day⁴

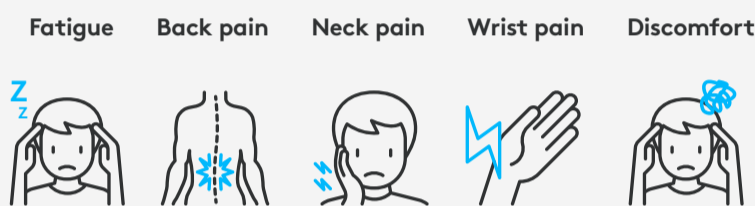

70x

That's about **70 times** as tall as The Empire State Building

And they'll move their mouse over **17 miles (27km)** in a year²

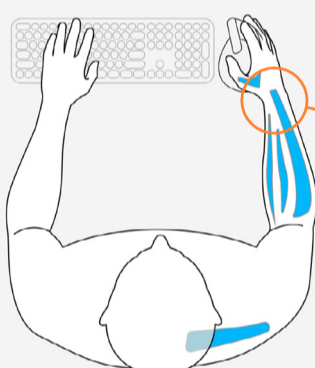

A COMBINATION OF BAD POSTURE AND THE WRONG TOOLS FOR THE JOB CAN LEAD TO

Which can also lead to higher costs...

\$1.5 billion direct cost of repetitive motion workplace injuries³

\$64,852 average total cost to employers for a single case of Carpal Tunnel Syndrome⁴

15% productivity loss experienced by employees suffering from wrist pain⁵

TEAMS NEED THE RIGHT TOOLS TO STAY PRODUCTIVE, HEALTHY, AND COMFORTABLE WHEN WORKING FROM HOME.

Logitech Ergo products are designed to provide comfort and pain relief

- ✓ Designed, developed, and tested with criteria established by leading ergonomists
- ✓ Promote a more natural posture to help relax the upper body and relieve discomfort
- ✓ Reduce muscle activity, helping users work productively with less strain
- ✓ Easy to use solutions that people love

TYPE MORE NATURALLY WITH ERGO K860

Reduces wrist bending by 25%⁷

- Curved, split keyframe improves typing posture
- Sloping form reduces muscle strain on wrists and forearms
- Keeps hands and shoulders relaxed

54% more wrist support⁶

MOUSE MORE FREELY WITH MX VERTICAL

10% reduced muscle activity compared to traditional mouse⁸

- Reduces wrist pressure and forearm strain
- Unique 57° angle optimized for ergonomic posture without compromising performance
- 4000 DPI high-precision sensor results in 4x less hand movement

88% of ergonomics professionals would recommend MX Vertical⁹

IT'S NICE TO HAVE OPTIONS

Logitech Options is a powerful and easy-to-use application that enhances Logitech Ergo series products, enabling users to:

Customize their device and personalize their experience

Set up custom shortcuts on their mice and keyboards

Assign F-Keys for specific functions

Check battery life and other device-specific status

9 out of 10 ergonomic product users never go back to traditional tools¹⁰
