

EDUCATION SOLUTIONS

Ready Devices, Ready to Learn!

In modern schools and higher-ed environments, mobile devices — smartphones, tablets, even school-issued 1:1 devices — are increasingly important for delivering lessons, assignments, collaboration, and remote learning. But educators and students frequently run into barriers that hinder teaching and learning: limited device memory or storage, battery drain, device fragility, and poor overall performance compared to traditional laptops.

Keep student and staff devices powered, protected, and ready for learning.

When you equip student and faculty devices with ZAGG and mophie accessories, you turn mobile devices from liability into powerful, dependable tools — supporting learning without interruption, accidents, or lost time.

ZAGG Tough Keys

SOLUTIONS FOR EDUCATION

| The Challenge | The ZAGG Solution |
|--|--|
| Devices run out of battery mid-learning | Always Charged: Portable charging solutions keep devices powered during learning. |
| Devices break easily in student environments | Rugged Protection: Rugged cases, and screen protectors guard against drops, spills, and daily wear. |
| Tracking and viewing device asset tagging | Cases: Rugged keyboards and case have convenient asset tag windows for easy viewing and device management. |
| Lost class time due to device downtime | Designed for Education: Products tested with educators in mind to withstand needs of classrooms and students. |

Use Cases:

- **Classroom & testing compliant** - Durable keyboard for students to use daily & during state testing
- **Student skill development** - Laptop-like keyboard promotes proper typing techniques
- **Device management made easier** - Clear back for easy-to-read asset tagging

Tough Keys

- 6.6ft drop protection
