

RETAIL SOLUTIONS

Mobile Payment Solutions You Can Rely On

In retail, handheld devices (smartphones, tablets, mobile scanners) are becoming commonplace: associates use them for inventory look-ups, price checks, stock taking, point-of-sale, and customer service.

How ZAGG Keeps Businesses Moving

We understand the retail environment. That's why we've created our mobile pay cases and chargers that allow you to consolidate the multi-step payment process into one central location. With mobile pay, you can complete a sale, take an order, or check in a customer all from one consolidated device.

mophie Mobile Payment Case

SOLUTIONS FOR RETAIL	
The Challenge	**The ZAGG Solution**
Devices run out of battery during long shift	**Always Charged:** Portable charging solutions keep devices powered when there needed most.
Screen/devices are vulnerable to drops and spills from frequent handling	**Protected Devices:** Rugged cases, screen protectors and keyboards are drop and impact protected.
Unorganized back of house with multiple chargers and storage bins for different devices	**Multi-Device Charger:** Our charging base and cups can charge multiple types of devices at once - removing extra charging cords
High-costs from lost sales when devices fail or replacements are needed	**Lower Total Cost:** Rugged cases protect the device and can take the abuse over and over.

ZAGG mophie

TRUSTED FOR BUSINESS

Use Cases:

- **Centralized charging -** Charge up to 10 devices on contact
