

Prove You're Secure Without the Hassle

More organizations are requiring SOC 2 from their vendors to prove they're secure business partners. But gathering the documentation and proving you're compliant is a tedious process. We demystify and automate your SOC 2 preparation so you can get audit-ready in half the time and prove to your customers that their data will be secure and safe in your environment.

Pass Your SOC 2 Certification 50% Faster

HOW IT WORKS

GET AUDIT READY, FAST

Tugboat Logic automates your SOC 2 documentation process to help you prove you are secure in less time.

PASS YOUR AUDIT WORRY-FREE

Tugboat Logic lets you collaborate with an auditor inside the platform eliminating the constant back-and-forth emails and audit delays.

MAINTAIN COMPLIANCE EFFORTLESSLY

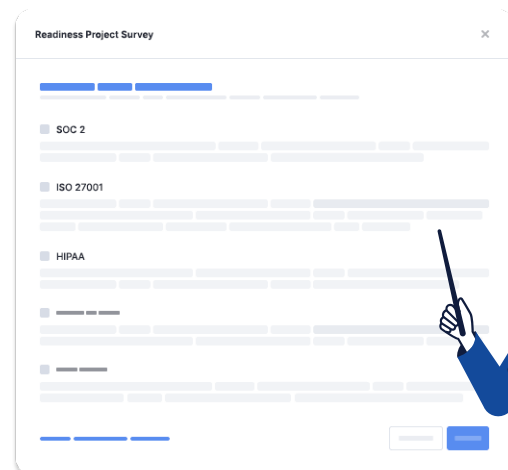

We automate compliance and help you provide security assurance, enabling you to scale your security program.

GET AUDIT READY

Tugboat Logic gives you a clear, actionable path to getting audit ready.

1. Fill out our scoping questionnaire, and we'll determine which policies and controls you'll need.

2. Connect your applications and automatically collect evidence without ever missing a collection interval. Then, see your progress and all evidence tasks at a glance in the compliance calendar. And for evidence tasks that can't be automated, leverage our Chrome extension to attach evidence to controls straight from your browser.

3. Verify that your applications are configured securely and get alerted about any issues so you can address them before submitting evidence to the auditor.

4. Automate your audit preparations beyond just evidence. Streamline complex, mandatory audit requirements such as risk assessments and vendor risk assessments and complete them within hours and not weeks, while maintaining the highest standard of security.

PASS YOUR AUDIT WORRY-FREE

What's more, once you're done with your audit prep, you can collaborate with an auditor of your choice inside the platform eliminating the constant back-and-forth emails and reducing your stress at audit time. We give you everything that your auditor is going to ask for: your evidence, your controls and your policies, all mapped together, exactly the way your auditor wants to see them. That means zero worries and no delays in getting your SOC 2 attestation, and a glowing SOC 2 report that will earn the nod of approval from even your most discerning clients.

MAINTAIN COMPLIANCE EFFORTLESSLY

Automate the tasks facing your team so you can stay compliant all year long without the stress or audit fatigue. Tugboat Logic's built-in project management tools help you visualize and automatically schedule all the evidence collection tasks you need to complete your audit. Our platform makes it easy to maintain your security standards and scale as you grow. And when it's time to expand to a new framework, we've got you covered with ISO 27001, PCI DSS, HIPAA, NIST CSF and more.

HERE'S WHAT SUCCESS LOOKS LIKE

We couple our technology with a team of in-house security experts and former auditors. In the background, our Tugboat Security Labs team ensures all our policy and control content is up-to-date in the platform. When customers need help, you can reach out to our Customer Success team either through the platform dashboard or through email. This means you get expert assistance every step of the way across all four stages of your journey.
