- Food Labeling
- Kitchen Receipts
- Employee ID
- Asset Management
- Shipping
- Document Management
- Transportation
- Concierge Organization
- Guest Services
- Entertainment Information
- Visitors Badge
- Document Management
- Marketing Materials
- On-Site Contracts
- Invoices
- Purchase Orders
- Locker Rooms

Labeling Software & Apps for the Hospitality Industry

P-touch Editor¹ for PC/Mac

iPrint&Label¹ for mobile devices

When you combine **P-touch Editor¹** software with your label maker, you cover all hospitality front office and back-of-house labeling needs with specialized templates designed for asset management, file and folder organization, POS, amenities signage, and much more. **iPrint&Label¹** is a free app available for download, allowing you to print labels from your compatible Apple® or Android® mobile device using your label maker or printer via Bluetooth® wireless technology or Wi-Fi.

Brother Can Help the Hospitality Industry

OPTIMIZE HOSPITALITY WORKFLOWS

Compatible with smart devices across all the major operating systems, professionals can create operational efficiencies and organize anywhere on the go, from small back offices to front lobby locations.

ADAPTABLE AND CUSTOMIZABLE

Design labels with the company logo, barcodes, and save them as templates for quick reprinting. Create instructions, name badges, and break room identification using the free P-touch Editor Software¹.

IMPROVE CUSTOMER SATISFACTION

Generating real-time, accurate labels from virtually anywhere in your hospitality location — whether it's from the back office and employee locker room to the front lobby — custom labels can improve hospitality efficiency.

SUPERIOR QUALITY AND PERFORMANCE

Pair high-quality Brother P-touch Label Makers and Label Printers with durable Brother Genuine TZE laminated Label Tapes and DK drop-in labeling supplies for reliable results.
