- Employee ID
- Specials/Announcements
- Equipment Management
- Asset Management
- Shipping/Receiving
- Inventory
- Document Management
- Barcodes/QR Codes
- Shelf Labeling
- Pricing Markdown
- Order and Delivery

Labeling Software & Apps for Quick Service Retail Locations

P-touch Editor¹ for PC/Mac

iPrint&Label¹ for mobile devices

When you combine **P-touch Editor¹** software with your label maker, you can meet all quick service retail labeling needs with specialized templates designed for inventory management, file and folder organization, POS, food prep signage, and much more. **iPrint&Label¹** is a free app available for download, allowing you to print labels from your compatible Apple[®] or Android[®] mobile device using your label maker or printer via Bluetooth[®] wireless technology or Wi-Fi.

Brother Can Help Quick Service Retail Locations

OPTIMIZE RETAIL LOCATION WORKFLOWS

Compatible with smart devices across all major operating systems, professionals can create operational efficiencies and organize anywhere on the go, from the back office and shipping dock to checkout counters and food shelves.

ADAPTABLE AND CUSTOMIZABLE

Create labels with the company logo, barcodes, and save them as templates for quick reprinting. Add dates and times for when goods arrive or when they need to be shipped, using the free P-touch Editor Software¹.

IMPROVE CUSTOMER SATISFACTION

Generating real-time, accurate labels from virtually anywhere in your quick-service retail environment — whether it's at the food prep areas and drink dispensers or even small back offices and checkout counters — will improve customer satisfaction.

SUPERIOR QUALITY AND PERFORMANCE

Pair high-quality Brother P-touch Label Makers and Label Printers with durable Brother Genuine TZe laminated Label Tapes and DK drop-in labeling supplies for reliable results.
