

Google Pixel

Built for business

High-level overview

Pixel is the Google-powered smartphone that's built for business. Easily customized, deployed, and managed, Pixel combines industry-leading security features with the latest Google technology, empowering businesses to reimagine the way they work and equip employees with high-performing mobile devices.

Personalization

Pixel has the tools you need to get the job done

Zero-touch enrollment makes it easy to deploy devices in bulk while a variety of management APIs customize your device for your business.¹

The Android Enterprise Recommended seal of approval boosts workforce confidence while personal and corporate profiles create OS-level separation between personal and company data.

Modernization

Innovation at your fingertips

Save time and effort by automating processes and accelerating workflows.

The custom-built Google Tensor processor uses artificial intelligence and machine learning capabilities to help enhance the user experience, Live Translate² sends colleagues secure messages in languages other than your own, Google Assistant³ tackles your to-do list, and 5G⁴ features like Duo HD screen sharing help you collaborate with colleagues over a video call.

Security

No-stress security

Pixel's Titan M2™ security chip, Google Tensor processor, at least 5 years of Android security updates⁵, and Security hub make Pixel even more resilient to attacks⁶ and ensure that private data stays that way.

Battery life

Say goodbye to costly downtime

Pixel's Adaptive Battery keeps employees productive on a single charge and Extreme Battery Saver⁷ helps your phone last up to 48 hours, even on 5G⁴, while charging up to 50 percent in around 30 minutes.⁸

Value

Premium performance at an affordable price

Pixel offers premium technology (including high-res display, a top-of-the-line camera, and AI-powered Google Assistant³) at an affordable price point.

¹ Some features require Android Enterprise.

² Not available in all languages or countries. Not available on all media or apps. See g.co/pixel/livetranslate for more information.

³ Google Assistant and some related features are not available in all languages. See g.co/assistant/languages for updates to language availability.

⁴ Requires a 5G data plan (sold separately). 5G service not available on all carrier networks or in all areas. Contact carrier for details. 5G service, speed and performance depend on many factors, including carrier network capabilities and signal strength. Actual results may vary. Some features not available in all areas. Data rates may apply. See g.co/pixel/networkinfo for info.

⁵ Android security updates for at least 5 years from when the device first became available on the Google Store in the US. See g.co/pixel/updates for details.

⁶ Compared to earlier models of Pixel phones.

⁷ Maximum battery life based on testing using a mix of talk, data, standby, and use of limited other features that are default in Extreme Battery Saver mode (which disables various features including 5G connectivity). Battery testing conducted using two major carrier networks. Battery testing conducted by a third party in California in mid 2021 on pre-production hardware and software using default settings, except that Extreme Battery Saver mode was enabled. Battery life depends upon many factors and usage of certain features will decrease battery life. Actual battery life may be lower.

⁸ Charging speed based upon testing with device batteries drained to 1% and charged with Google 30W USB-C® Charger; sold separately. Charging testing conducted by Google in mid-2021 on pre-production hardware and software using default settings with the device powered on. Charging speed depends upon many factors including usage during charging, battery age and ambient temperature. Actual charging speed may be lower.
