

# CASE STUDY

## National Senior Living Provider

Acer Chromebook 315

### CHALLENGE AND SOLUTION

- The customer required affordable, stable, and secure devices for Electronic Medical Records (EMR) care, which is PointClickCare (PCC).
- Chrome Enterprise Upgrade provides ease of manageability and inherent security.
- The customer purchased a fleet of 15” Chromebook 315 devices in a targeted price range.
- A channel partner provided white glove services.

### WHY ACER

- The customer chose Acer’s Chromebook 315 (CB315-4HT) devices due to competitive pricing and availability.
- Acer was flexible and able to meet the customer’s revised targeted deadlines after the project was moved up by 2 months.
- There is a strong, responsive, and supportive relationship between the customer, partner, and Acer.
