Why Dell Monitors

Best in eye comfort¹

Lead the industry with the highest 5-star eye comfort certification, enhancing workplace well-being.

Easy management

End-to-end solutions including Dell Display and Peripheral management solution that customizes and manages the entire Dell PC ecosystem.

Seamless experience

Designed & tested for a seamless user experience with Dell systems.

Reliability & quality

Enjoy peace of mind knowing that Dell monitors offer a reliability rate of 99.6%² uptime. We further support this commitment to quality and reliability with our industry-best 3-year Advanced Exchange Service and Premium Panel Exchange warranty.

Designed for the AI-era

Extensive portfolio designed to enhance AI PC experience and boost productivity - larger displays, higher resolutions and future proof connectivity.

Sustainability

Widest portfolio of EPEAT Climate certified monitors³, and use of recycled and renewable materials, both in the product and packaging.

THE WORLD'S #1 MONITOR COMPANY⁴

For the ultimate in resolutions & color performance, plus industry's best Exchange Service and warranty

1 Based on internal analysis of 27" and 31.5" monitors with eye comfort features, October, 2024.
2 Source: Based on Dell Quality Intelligence (QI) tool - Dell Internal Analysis, January 2025. 99.6% uptime rate reflects operational reliability, with 0.4% dispatch in the first year.
3 Based on EPEAT Climate+ Designations achieved by Product Type in all applicable countries. EPEAT registered where applicable.
EPEAT registration varies by country. See www.epeat.net for registration status and tier levels by country. Data as available in September 2023.
4 Source: IDC Worldwide Quarterly PC Monitor Tracker, Q4 2024.

Dell and Dell Pro Monitors

Find the right solutions for your business needs with our expansive range of monitors, that offer incredible collaboration, reliability and screen performance.

Dell Pro – Designed for professional-grade productivity

UltraSharp

Design-forward monitors with cutting edge technology, delivering unparalleled color accuracy and the best eye-comfort solutions.

Dell Pro Plus

Monitors packed with features for enhanced performance, connectivity and collaboration.

Dell Pro

Essential and reliable monitors that effortlessly connect with your PCs for business productivity.

Dell – Designed for play, school and work

Dell Plus

Stylish monitors offering impressive audiovisual quality for an enhanced viewing experience.

Dell

Essential monitors that effortlessly connect with your PCs for everyday work and entertainment.

UltraSharp monitors

Take work to new heights with monitors that use groundbreaking technologies to deliver best color performance, latest connectivity options and exceptional ease-of-use.

Discover incredible screen performance

Enjoy a superior front-of-screen experience with industry-leading panel technology that delivers incredible color coverage and sharp, lifelike images with up to 99.8% DCI-P3, IPS Black and up to 8K resolution.

Experience enhanced productivity

Power productivity with the range that offers the most extensive array of ports, the highest number of ultrawide monitors, and intelligent multi-tasking features.

Seamless collaboration

Experience best-in-class collaboration with monitors built for teamwork, featuring premium optical and audio technology and intelligent features that enhance video conferencing.

Dell Pro Plus monitors

Optimize business performance with Dell Pro Plus monitors available in different form factors and connectivity options for any work style

Enhanced connectivity

Stay connected, secure and productive with RJ45 for wired Ethernet connectivity. Keep it organized with USB-C providing up to 90W power delivery in a clutter-free setup.

Perfect fit for the business

Select a screen that fits your business needs. With options within the Pro Plus portfolio, ranging from the smallest portable 14" monitor, to 75" large format displays, you can pick the ideal size and resolution that best fits your organization.

Personalize the workspace

Tilt, swivel, pivot and adjust the height of your monitor to customize any work style or user needs.

Color consistency, built-in

Experience consistent, vibrant colors from wide viewing angles with In-Plane Switching (IPS) technology on an anti-glare screen, while enjoying improved eye comfort with Improved ComfortView Plus—a built-in feature that reduces blue light emissions to less than 35% without compromising color quality.

Dell Pro monitors

Dell Pro monitors offer an essential suite of energy-efficient displays with upgraded essentials designed to meet everyday business needs.

Less clutter, more productivity

A thinner profile and improved cable management create a smaller footprint, enabling a cleaner, less cluttered desk.

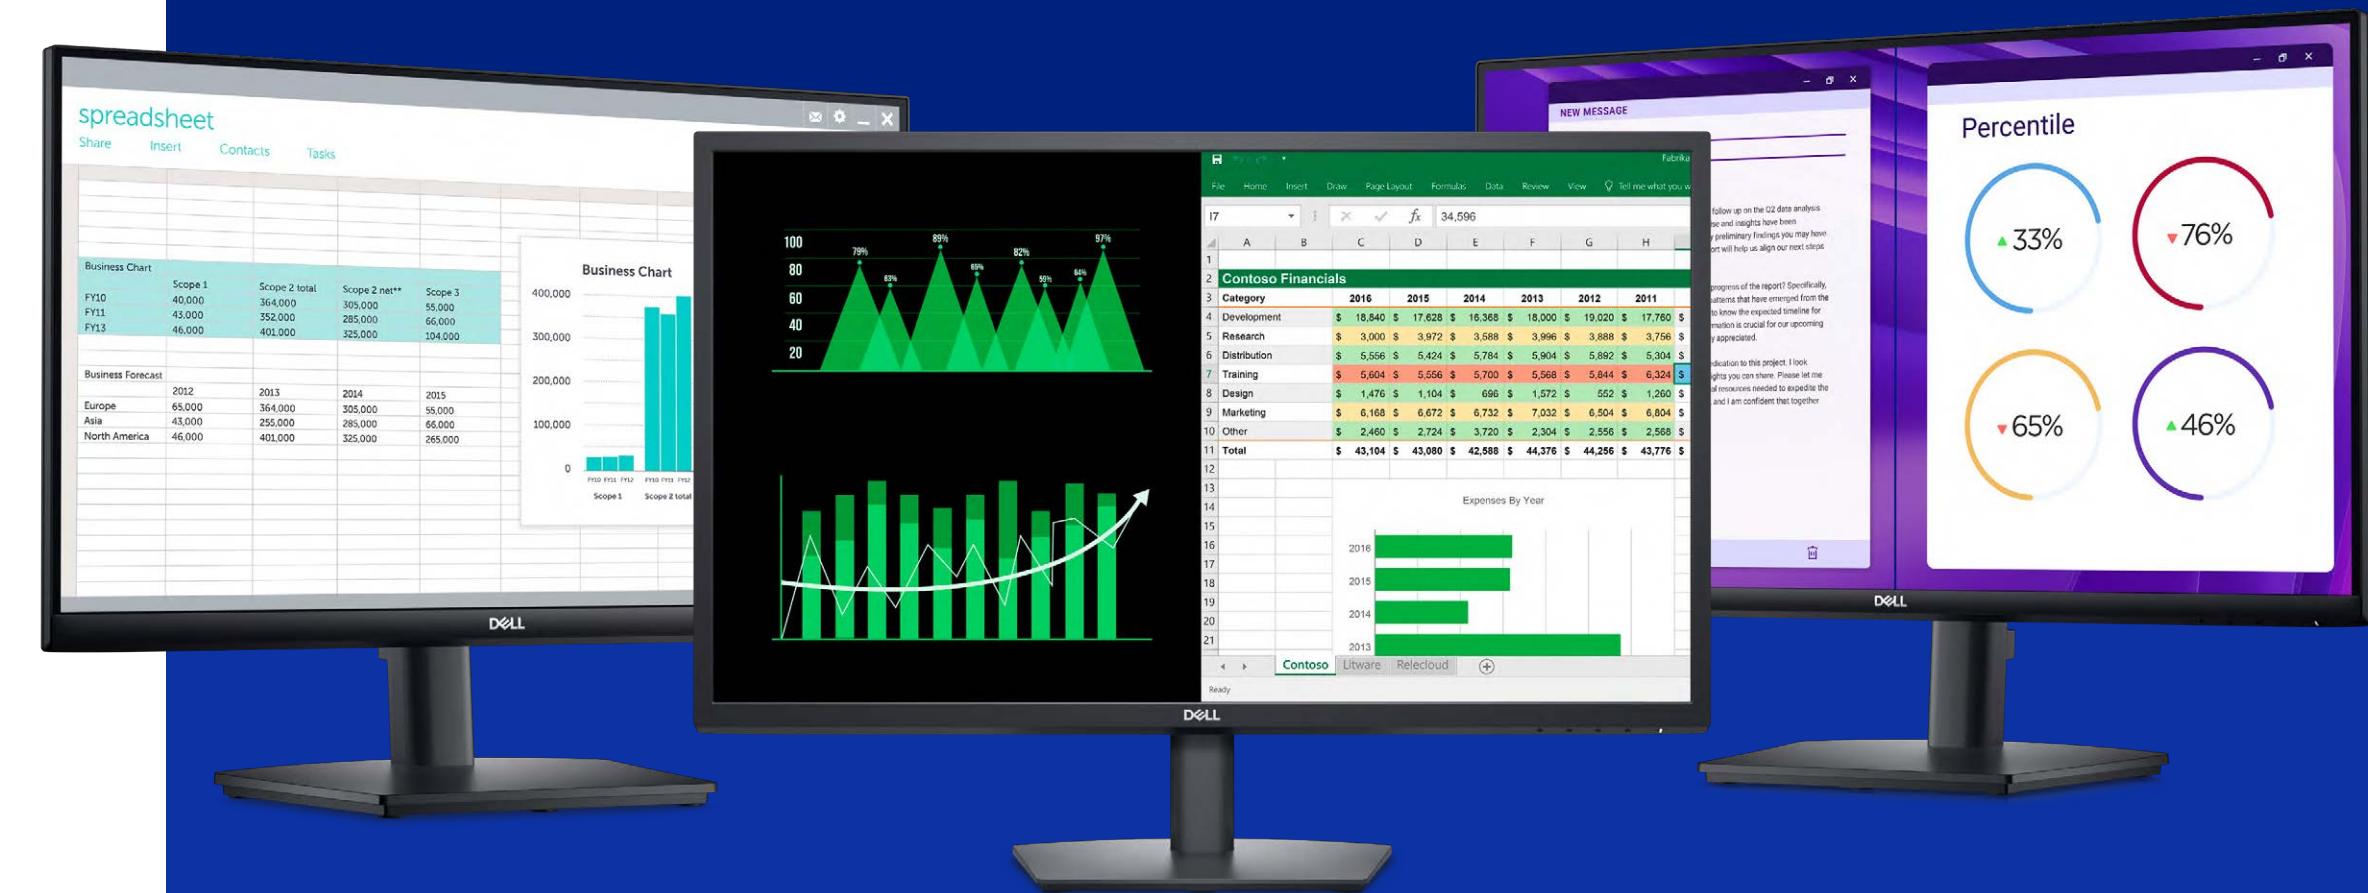

Versatile efficiency

Dell Pro monitors offers a wide array of monitors, ranging from standard, thin and narrow bezel designs and screen sizes from 17" to 27", ideal for single or multi-monitor setups.

Green thinking, for today and tomorrow

Dell Pro monitors are built using renewable energy and meet top safety standards with certifications including EPEAT Gold with Climate+, ENERGY STAR®, and TCO designation¹.

¹ EPEAT registered where applicable. EPEAT registration varies by country. See www.epeat.net for registration status by country.

Dell monitors

Essential monitors that effortlessly connect with your PCs and offer enhanced eye comfort, functional, space-saving design and wide viewing angles for everyday work and entertainment.

Enhanced eye comfort

Certified with TÜV Rheinland® 3-star eye comfort certification, Dell monitors improve visual well-being with ComfortView Plus, engineered to minimize harmful blue light exposure without sacrificing color accuracy.

Dependable from every angle

Sleek design with thin bezels mean more visual and less distractions. Plus In-Plane Switching (IPS) technology offers a wide viewing angle for excellent color accuracy and consistency.

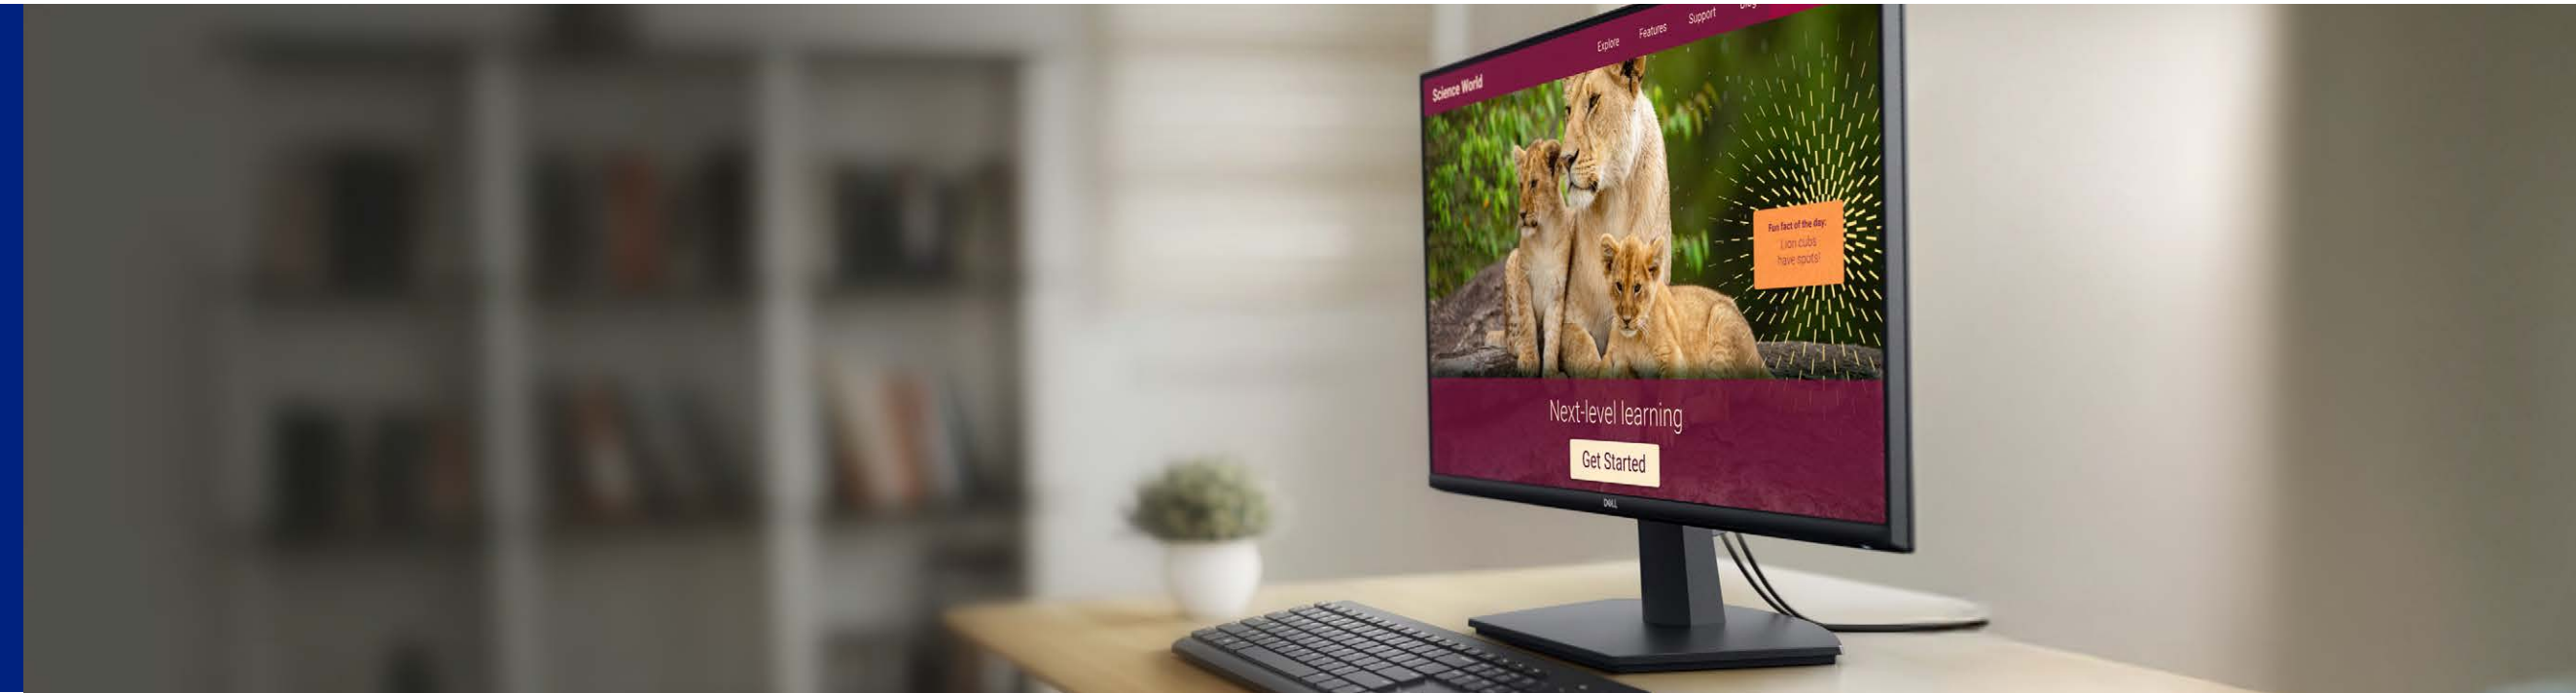

Functional, space-saving design

Connect with ease using simple connectivity to most PCs, current or legacy, via HDMI or VGA. Dell monitors also feature a small footprint, built-in power supply unit and cable holder to keep desktop neat and tidy.

Dell video conferencing room solutions

Simplify team collaboration with an easy-to-use conferencing solution backed by one stop enhanced support.

Next-level teamwork

Multiple users can write, edit, annotate, and erase notes on our interactive-touch, large-format monitors at the same time.

Simplify collaboration

Bring high quality video, audio and web conferencing to any sized room with compute, software and hardware all in one solution, seamlessly powered by OptiPlex 7000 XE Micro Form Factor.

One-touch join

Instantly project and share with remote participants with one-touch join on the Logitech Tap Touch controller.

One-click wireless share

Present content wirelessly from your laptop or mobile device with intelligent proximity one-click sharing.

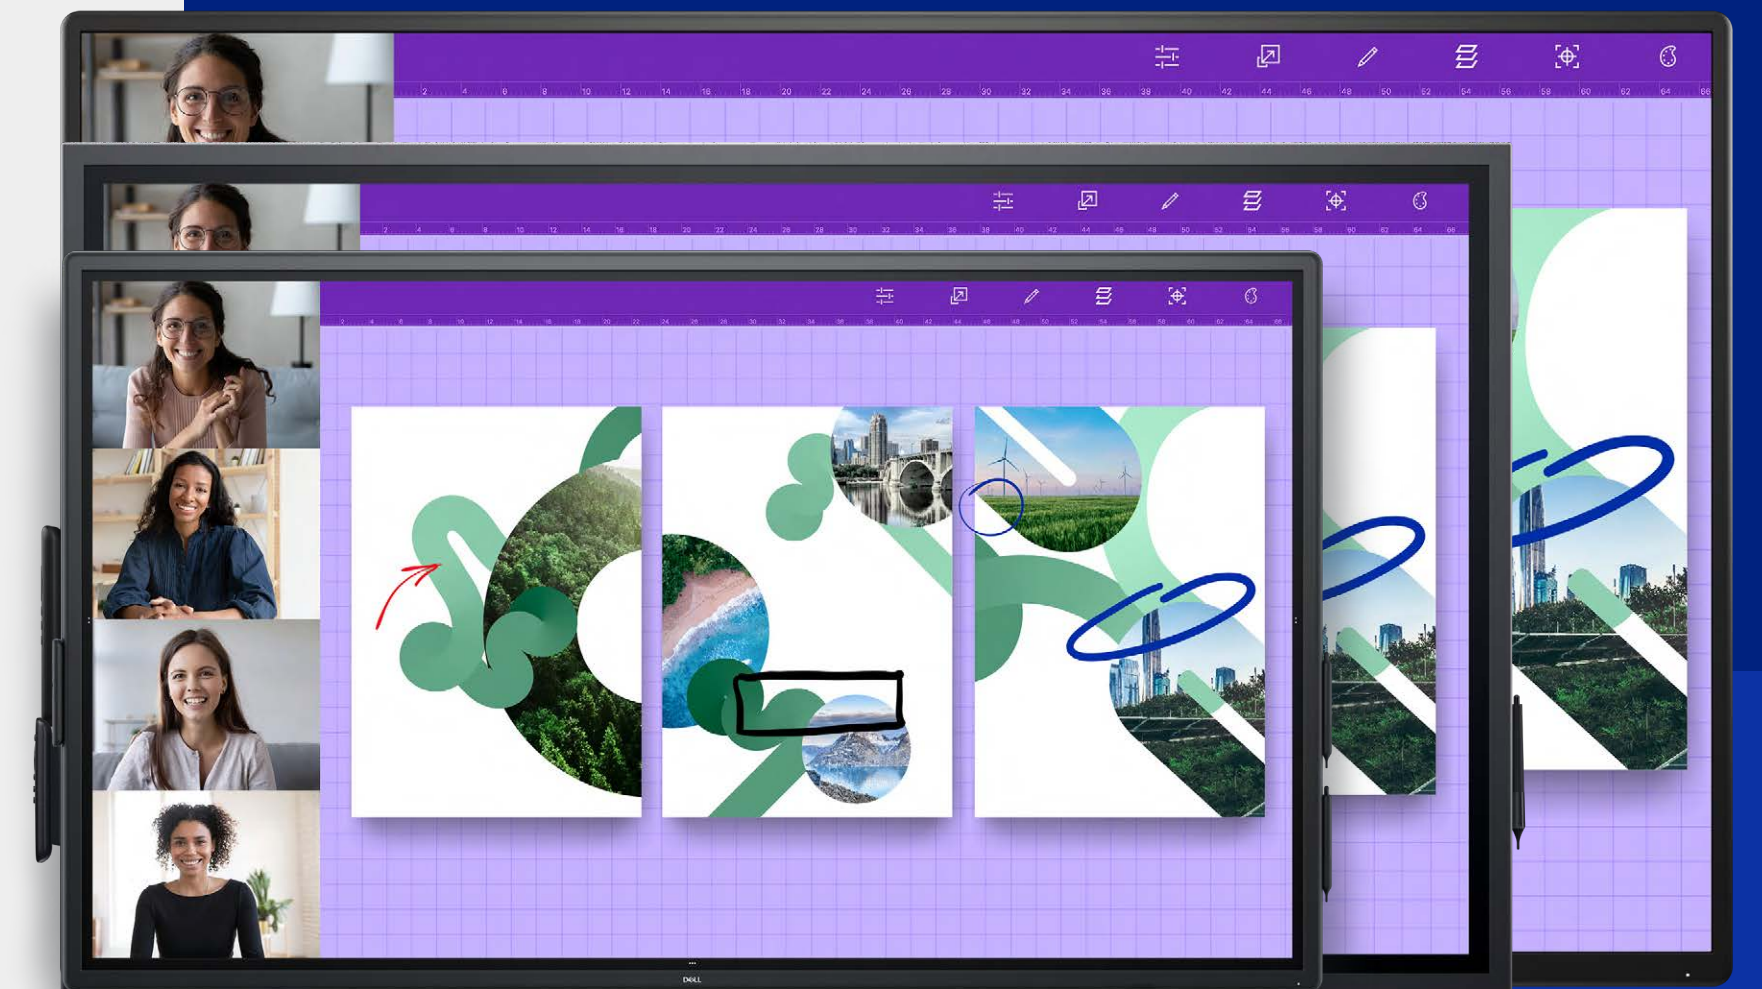

Tested & validated

All key solution components including compute, display, software and other conferencing accessories are tested by Dell engineers for optimal performance.

Easy to deploy, easy to manage

Our systems and collaboration software are secure and easy to manage. Your IT team can even manage meeting displays remotely via admin dashboards which provide real-time reports and history of room usage, meetings and devices.

Dell video conferencing room solutions

Transform collaboration in any meeting space with a total conference room solution that includes Microsoft Teams Room, Zoom Room and Dell Large Format Monitors powered by Dell Pro Micro.

For IT decision makers

Dell Device Management Console

ONE console to simplify Dell client device management at scale

Elevate the IT experience with fleet-wide peripheral deployment, secure firmware updates, and insights for lifecycle planning, all with easy, centralized accessibility through the management console and Microsoft Intune.

Only Dell offers a holistic solution to manage your fleet of AI PCs and peripherals², delivering seamless and secure integration with leading management platforms such as Microsoft Intune and Azure.

¹ Based on Dell internal analysis, December, 2024. Dell's solution was compared to the (4) known PC accessory management solutions from leading OEMs, finding that Logitech, and HP both support only (2) peripheral categories each, Lenovo supports (5) accessory categories and Jabra supports only (1). Dell offers the ability to manage and customize (8) PC accessory categories including a breadth of purpose-built Dell displays, docks, keyboards, mice, stylus, webcams, headsets, and speakers.
² Based on Dell internal analysis - November 2024. 'Solution' refers to a combination of Dell Management Portal's cloud-based PCs management capabilities in Microsoft Intune & Dell Device Management Console's cloud-based peripherals management capabilities. Dell Device Management Console and its cloud-based peripherals management capabilities planned for activation in March 2025. AI PCs refer to PCs with Intel® Core™ Ultra processors, that handle AI workloads on-device efficiently.

Best eye comfort monitors

Dell monitors with world's best eye comfort helps reduce 30% more blue light than other brands¹, resulting in less eye fatigue during prolonged screen time.

Improved ComfortView Plus

reduces harmful blue light to lessen eye fatigue and improving comfort without compromising color accuracy.

Ambient Light Management

adjusts brightness and color tone automatically to adapt to the environment, guarding against eye strain for optimal eye comfort.

Higher Refresh Rates

help reduce blur, lag and flicker for greater detail, smoother, more fluid motion and more comfortable user experience.

Eye Comfort Certification

Certified products are given a rating of 3 (good), 4 (great), or 5 (excellent) Star, based on important features for ensuring eye comfort.

TÜV Rheinland

New Eye Comfort Certifications

3 Star

Refresh Rate \geq 60 Hz
ComfortView Plus
NTSC \geq 95% or sRGB \geq 95%

4 Star

Refresh Rate \geq 75 Hz
Improved ComfortView Plus
sRGB \geq 95%

5 Star

Ambient Light Management
Refresh Rate \geq 120 Hz
Improved ComfortView Plus
DCI-P3 & sRGB \geq 95%

¹ Based on third party research findings of TÜV Low Blue Light CAT 3 Panel, July 2024.

Sustainability

Up to 44% less power consumption when refresh a 5 year-old monitor with newer generation of monitors¹

Packaging with purpose

Dell monitors ship in boxes made with 100% renewable content that is also 100% recyclable². Dell is working on reducing plastic in our packaging and working on an entirely fiber-based solution that is kinder to the environment³.

Leading in Material Innovation

Dell has now introduced the world's first monitors designed with 50% recycled steel in the chassis⁴. Dell monitors are designed with a range of innovative materials including recycled steel⁴, recycled aluminum⁵, recycled glass⁶, and recycled plastic⁷.

Meeting industry's best environmental standards

Dell monitors meet key environmental standards for energy efficiency and climate impact like ENERGY STAR[®], TCO Certified Edge, and are registered EPEAT Gold with Climate Plus⁸.

1 Based on internal analysis, January 2025. Power consumption is based on monitor "on-mode". Data comparison is between monitors launched in 2025 and previous generation up to 2020. Excluding Large format and Portable monitors.
2 Applies to all Dell Monitors launched since 2023. Made from FSC mix sources which is a mix of material from FSC certified forests, recycled content and/or FSC controlled wood. Based on internal analysis, August 2023.
3 Based on internal analysis, January 2024. Applies to all new P series and S series monitors launching in CY 2024. 22% average reduction in plastic use is based on the removal of EPE foam.
4 Based on internal analysis, April 2024.
5 Based on internal analysis of publicly available data, September 2023.
6 Applicable to all new monitors launching in CY 2024. Recycled glass is present in monitor panel. Based on internal analysis, January 2024.
7 Percentage is of total plastic weight in product. Based on internal analysis, October 2022. Applicable to all new commercial monitors (U, P, C series starting CY 2021) and E series (starting CY 2022).
8 Based on EPEAT Climate+ Designations achieved in all applicable countries. EPEAT registered where applicable. EPEAT registration varies by country. See www.epeat.net for registration status and tier levels.

Steadfast Reliability

Built for reliability. Dell monitors undergone rigorous testing to ensure long-lasting quality with a reliability rate of 99.6% uptime¹.

Limited Hardware Warranty
