

Why Choose Acer TravelMate Devices*

01

Collaboration

Utilize adaptable collaborative tools to easily complete team tasks with TravelMate devices.

- Microsoft Teams, WLAN, Bluetooth®, gigabit LAN, and webcam for essential communication
- Upward-facing speakers with noise cancellation technology for remote conferencing
- Dockable stylus for quick notetaking during meetings

02

Productivity

Boost productivity and performance with next-generation hardware, intuitive designs, and highly functional applications offered by TravelMate devices.

- Microsoft 365 applications and services
- Latest-generation Intel® Core™ and AMD Ryzen™ PRO processors
- Ultra-thin and light designs
- Anti-glare displays with up to Full HD resolution, IPS technology, and touchscreen options

03

Security & Privacy

Protect your privacy and data from unwanted access with the latest security features and designs.

- Acer ProShield Plus supports secure biometric authentication features and protects the integrity of your data
- Microsoft Pluton technology mitigates firmware attacks with secure Windows updates and increases resistance to physical attacks on lost or stolen devices
- TPM 2.0, Intel® vPro™, and AMD PRO technologies ensure secure authentication and safeguard data
- Acer PrivacyPanel, camera shutter, and fingerprint reader protect your privacy

04

Organizational Efficiency

Significantly lower required IT resources with highly efficient applications to deploy, secure, and enable remote access to new TravelMate devices.

- Windows Autopilot reduces time and resources to deploy laptops easily and securely with cloud-based services
- Microsoft Endpoint Manager secures, deploys, and manages all users, apps, and devices without disruption to daily operations
- Remote Desktop gives users access to their own machine virtually (files, folders, and apps) from any device for hybrid and remote work possibilities

05

Added Protections**

Combine a durable design with antimicrobial solutions for a high-performing business laptop that has been built and tested to last.

- Certified military-grade durability protects rugged TravelMate devices from unexpected drops or spills
- Acer Disk Anti-Shock Protection absorbs shocks to protect the hard drive
- DustDefender prevents internal dust buildup
- Antimicrobial Corning® Gorilla® Glass and silver-ion solutions on the keyboard and palm-rest surface help to keep your laptop clean

*Specifications, features, and availability may vary depending on model.

**TravelMate devices are not intended for military use. Damage sustained under MIL-STD conditions or any accidental damage requires an optional Acer service upgrade that includes Accidental Damage Protection.

"I found myself enjoying [the Acer TravelMate Spin P4's] quality and durability, and you can't argue with the price. It features modern components, a nice mix of new and legacy ports, and good battery life."

-Thurrott
