

Acer TravelMate P4 Spin: EXPERIENCE THE FUTURE OF AI PRODUCTIVITY TODAY

Move your organization into the future of work with the Acer TravelMate P4 Spin, a 2-in-1 AI business convertible laptop.

We are living in the new era of artificial intelligence, where AI-powered tools, devices, and software are rapidly changing not just the way we work but the future of work, driving innovation and accelerating productivity in ways that no one ever predicted.

Smart businesses are quickly realizing the power AI has to transform their operations and future. Your employees want to be empowered by the latest AI tools that can make a difference in their day-to-day work. You want devices that are secure, durable, and easy to maintain. No one wants to be left behind.

How can you make sure you're maximizing the AI potential of your workforce right now and getting everything else you need?

Enter the Acer TravelMate P4 Spin, a 2-in-1 AI business convertible laptop engineered to drive the future of work. Thanks to next-generation AI-driven

The Acer TravelMate P4 Spin comes loaded with Windows 11 Pro and is Microsoft Copilot ready, unleashing incredibly powerful yet simple-to-use tools that will help your team excel in the new era of AI.

tools and hardware, your users will experience unparalleled productivity, be able to seamlessly switch between tasks, and do it all securely – no matter where they chose to work from. And you'll get the reliability, security, performance, portability, and durability you expect from Acer.

Superior AI Productivity with Windows 11 Pro and Microsoft Copilot

The Acer TravelMate P4 Spin comes loaded with Windows 11 Pro and is Microsoft Copilot ready, unleashing incredibly powerful yet simple-to-use tools that will help your team excel in the new era of AI.

According to three recent studies, harnessing the power of Windows 11 Pro and Copilot results in:

- A 42 percent faster completion of workloads¹,
- A 58 percent drop in security incidents², and
- A 68 percent improvement in the quality of work³.

Your users will be able to achieve more with less thanks to the immersive workflows that elevate performance. Copilot in Windows brings intelligent tools together for unmatched productivity and flexibility. As the IT team managing these devices, you'll be happy your users are getting the best security management safeguards to protect against evolving threats. As an organization, you can trust that your data is private when using Copilot, as content and search data is not saved, used to train AI models, or viewed.

With Windows 11 Pro and Microsoft Copilot, your entire team truly can be future-ready today.

Powered for the AI Future

The Acer TravelMate P4 Spin also gives your workforce an AI-powered performance boost thanks to next-gen Intel® Core™ Ultra processors with vPro. These processors feature:

- **A Fast-Response CPU:** You can rely on the central processor for smaller workloads at low latency.
- **A High-Throughput GPU:** The graphics processing unit is ideal for large workloads that require parallel throughput.
- **A Power-Efficient NPU:** The neural processing unit handles sustained, heavily used AI workloads at low power for greater efficiency.

Other ROI-maximizing features that can be found under-the-hood of the Acer TravelMate P4 Spin include:

- Up to 64 GB DDR5 Memory
- Up to 1 TB M.2 PCIe SSD

The Acer TravelMate P4 Spin redefines business mobility thanks to its thin profile at just 0.74 inches thin and light frame at 3.28 pounds.

Mobile Work Redefined

The Acer TravelMate P4 Spin redefines business mobility thanks to its thin profile at just 0.74 inches thin and light frame at 3.28 pounds.

As a 2-in-1 device, your users will be able to effortlessly switch between modes, while the long 14.5-hour battery life⁴ with fast charging helps make sure even your most driven road warriors can get going quickly and stay charged.

Not to mention it's beautiful laptop:

Even your most demanding users will indulge in its stunning 14" WUXGA (1920x1200) matte display⁵ with touch. It features a 16:10 narrow bezel for enhanced visuals, plus improved sound thanks to built-in DTS[®] audio.

Your users will also appreciate that the Acer TravelMate P4 Spin comes with:

- Backlit Keyboard with Noise Reduction
- Antimicrobial Corning Gorilla[®] Glass[®] Touch Panel
- 1080p Full HD Camera with Acer TNR Solution and Privacy Shutter
- Fast WiFi 6E connectivity (optional upgrade to 4G LTE built-to-order)
- Two Thunderbolt 4 Type C Connectors with 65W Power Delivery
- Two USB 3.2 Gen 1 Type A Connectors
- One HDMI 2.1 Connector
- One SIM Card Reader
- One Audio Jack
- Intel[®] Bluetooth[®] Audio

Users can manage all their AI and smart features on one interface with Acer TravelMateSense, further expanding the accessibility and productivity of their AI tools.

Acer AI: AI-Assisted Productivity

The Acer TravelMate P4 Spin is an AI PC that delivers the latest innovative AI features to enhance business productivity and support professional tasks. Its AI features include:

- Copilot in Windows with Bing Enterprise Chat
- Acer TravelMateSense
- Acer Experience Zone
- Acer LiveArt
- Acer AlterView
- Gimp + Intel® Stable Diffusion Plugin
- Acer PurifiedView
- Acer PurifiedVoice

Users can access Copilot in Windows by pressing the Microsoft Copilot hotkey, a button for accessing, managing, and customizing their PC, making AI incredibly easy to take advantage of while staying organized and in the flow. You'll see how Copilot effortlessly kickstarts writing projects or tackles problem-solving, and users can tailor Copilot's settings to their work style, increasing productivity further.

Users can manage all their AI and smart features on one interface with Acer TravelMateSense, further expanding the accessibility and productivity of their AI tools.

These laptops also offer Acer Experience Zone, a collection of AI-related features that make creativity experiences a breeze. For example, Acer LiveArt helps to instantly remove the background of an image with people, animals, and objects; you can also edit and paste your image anywhere – like creating a sticker. Acer AlterView lets you personalize your laptop with live wallpapers and create a stunning dynamic parallax effect with the AI models to generate depth maps on 2D images. Additionally, GIMP + Intel® Stable Diffusion Plugin is a free, downloadable, open-source raster graphics editor users can use to generate art, illustrations, and images with just a few clicks and simple text input.

You'll also get Acer PurifiedView and PurifiedVoice, which use advanced AI algorithms to enhance webcam clarity and sound, so your users will always look and sound their best when connecting online.

Reliability & Sustainability Thanks to Acer Innovation

With the Acer TravelMate P4 Spin, you're getting the rugged reliability Acer devices are known for. These laptops have passed MIL-STD-810H military-grade testing, proof that it can stand up to the toughest tests for mechanical and vibrational shock as well as environmental threats like dirt, dust, humidity, and temperature fluctuations.

They also now feature Acer Dust Defender. Dust buildup can cause devices to slow down, impacting their performance and longevity. Acer Dust Defender Technology helps prevent this by reversing the fan direction whenever the device is powered on and periodically during use, clearing out dust that accumulates over time. In controlled scenarios tested by Acer, the company found that Acer Dust Defender was able to maintain near-original out-of-factory thermal performance while ensuring the fans were kept clear of dust.

When it comes to sustainability, the Acer TravelMate P4 Spin is EPEAT® Gold registered, TCO certified, and incorporates recycled materials in its design. Furthermore, as part of Acer's Earthion initiative, its eco-consciousness extends to the use of 100 percent recyclable packaging materials.

Security You Can Trust (and Easily Manage)

Enter a realm of unrivaled security and comprehensive administration where your data is safeguarded on multiple levels.

You know you have security you can trust with Windows 11 Pro. Designed for the world of hybrid work, Windows 11 Pro empowers employees to do their job securely from anywhere. Features include:

- **TPM 2.0:** Your hardware is secured by default with discrete trusted platform module (TPM) 2.0.
- **Security out-of-the-box:** This includes phishing safeguards, passwordless security, and app control.
- **Modern security management:** Streamline security management across diverse locations and extend your security to the cloud.

These laptops also use AI to help detect various threats thanks to Copilot for Windows as well as Intel® Threat Detection Technology, which can identify early indicators of an attack.

The Acer TravelMate P4 Spin offers biometric security via a fingerprint reader (the ultimate non-replicable password!). Users will get additional protection from the built-in camera privacy shutter.

These devices also come preloaded with Acer Office Manager (AOM) and Acer ProShield Plus, two Acer tools that combine to make it easy to remotely manage and secure your fleet of devices. These robust tools work together to set monitoring policies and combat a wide range of security threats including USB-based attacks, data theft attempts, and a wide variety of malware.

Acer ProShield Plus Security Manager includes:

- **Data Protection:** File and Folder Encryption and Decryption, Personal Security Drive

Enter a realm of unrivaled security and comprehensive administration where your data is safeguarded on multiple levels.

- **Security Alert:** Invalid Access Alert, Security Report
- **Data Removal:** File Shredder

Your AI Business Laptop
