

ENET

Connect with Confidence

OEM Compatible Network Peripherals & Connectivity Products

COMPATIBLE TRANSCEIVERS

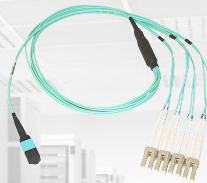

CFP | CFP2 | CFP4 | SFP | SFP+ | SFP28 | QSFP+ | QSFP28 | QSFP-DD
SR4 | PAM4 | LR4 | LR4LITE | CWDM4 | PLR4 | PSM4 | 25G | 50G | 100G | 200G | 400G

DIRECT-ATTACH CABLES

FIBER/COPPER PATCH CABLES

SERVER MEMORY

MEDIA CONVERTERS

AUDIO/VIDEO ADAPTERS

NETWORK INTERFACE CARDS

POWER CORDS

Compatible Solutions for the following Manufacturers

Accedian • Adtran • Adva • Aerohive • Alcatel/Lucent • Allied Telesis • Arista Networks • Arris • Aruba • Avaya • Brocade • Calix • Ciena • Cisco • Cyan • Dell • Extreme Networks • F5 Networks • Fujitsu • Gigamon • HP • Huawei • IBM • Intel • Infinera • Ixia • Juniper • Mellanox • Nokia • Nortel • Palo Alto Networks • Ruckus • Telco Systems • Tellabs • Zyxel and many more..

WHO IS ENET?

Established in 2003, ENET Solutions is a leading manufacturer and solution provider of more than 20,000 different network peripherals and connectivity products. Our products include OEM Compatible optics, direct-attach cables, fiber and copper patch cables, Network Interface Cards, Memory upgrades, power cables, and more. Our continued growth is the direct result of our dedication to quality through innovation, development, and validation using the industry's most advanced networking and testing platforms.

DID YOU KNOW?

ENET is The "Brand behind the Brand" - ENET has been private labeling optics for more than 100 other companies for over 15 years.

ENET is the Pioneer of 3rd party optics - We have more than 15 years of experience with coding development and compatibility.

ENET TESTS, PROGRAMS, LABELS, PACKAGES, and SUPPORTS our own product - We do it all in-house while 90% of other optics companies rely on their suppliers.

CLIENT BENEFITS

- ENET Products perform identical to the OEM. **"Supported Display"** with full System Recognition and Optical Monitoring Diagnostics.
- ENET Products Will Not void the OEM Warranty & Service Level Agreements.
- ENET utilizes **Spirent Test Center** for "low-latency" performance and benchmark testing.
- On-site Test Lab Facility for Guaranteed Functionality and Compatibility
- **Custom Solutions**- DAC Programming 10Gbps/40Gbps/100Gbps/200Gbps/400Gbps for Connecting Different Devices for Supported Cross Compatibility. *(example: Cisco to HP, Juniper to EMC, Arista to NetApp, etc.)*
- **FREE- Engineering Samples** for Qualification and Validation Testing.
- **FREE Spares Program**- Receive additional product on all large orders for on-hand spares.
- ENET provides our clients with Pre and Post-Sales Technical Support.
- Lifetime Warranty
