

# HP closed-loop recycling

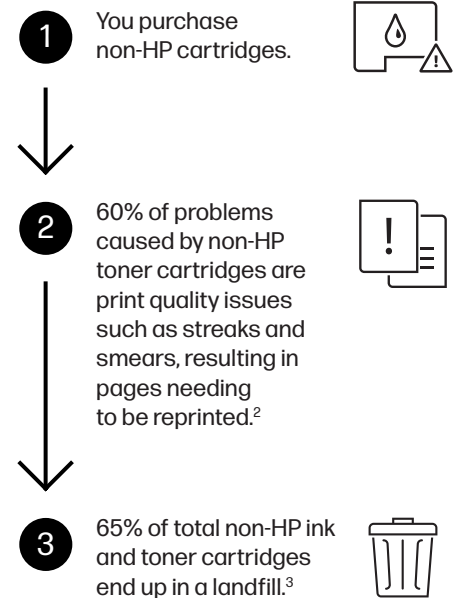

When you choose Original HP Cartridges and recycle through HP Planet Partners, you become part of a more circular, sustainable system—where materials are reused to make new products, and help keep plastics out of landfills.<sup>1</sup>

## Circular closed-loop economy<sup>1</sup>

## Linear economy

## Bring used products back to life

In HP's closed-loop process,<sup>1</sup> almost every part of the ink or toner cartridge is either recycled or reused; nothing goes to a landfill. HP combines cartridges returned through HP Planet Partners with other plastics, such as reclaimed ocean-bound plastic bottles, to make new Original HP Printer Cartridges. Program availability varies. See [hp.com/hprecycle](http://hp.com/hprecycle).

When you return Original HP Ink and Toner Cartridges to HP Planet Partners for recycling,

you join a global sustainability effort<sup>1</sup> and your used cartridges won't go into landfills—

they become renewed plastics that help close the loop<sup>1</sup>

## Did you know?

Remanufacturing does not necessarily prevent cartridges from ending up in landfills. Over 1/2 of ink and toner cartridges collected by remanufacturers were unusable for remanufacturing and 71% of remanufactured ink and toner cartridges sold will end up in landfills.<sup>3</sup>

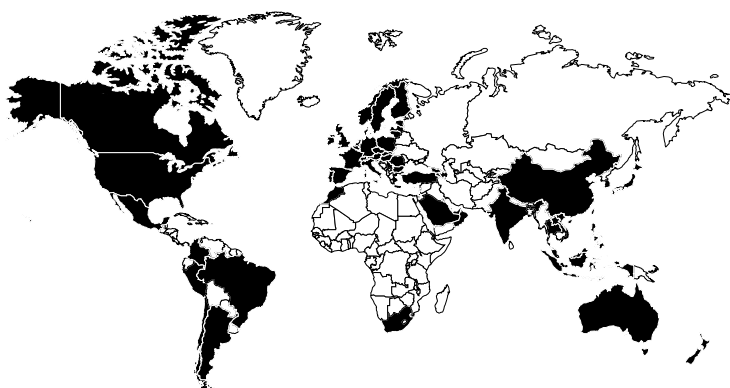

# Free recycling with HP Planet Partners<sup>1</sup>

HP Planet Partners manages a broad network of HP third-party recycling vendors.

**60+**  
Countries where HP offers ink and toner recycling.<sup>1</sup>

**1 billion+**  
print cartridges returned to the HP Planet Partners recycling program as of December 31, 2022.<sup>4</sup>

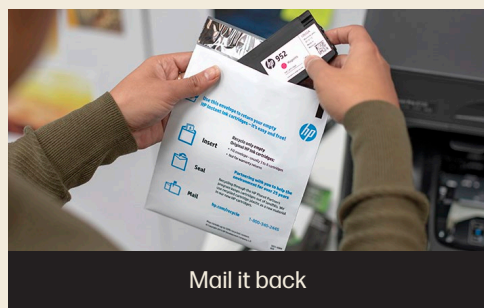

Materials from recycled HP Cartridges are used in new Original HP Cartridges.<sup>5</sup>

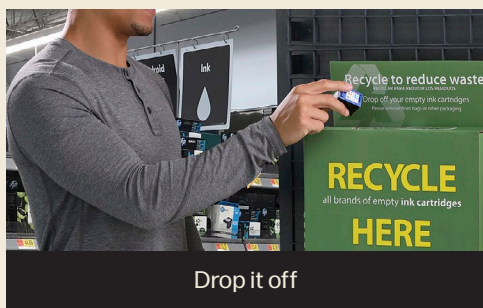

**88%**  
of Original HP Ink Cartridges contain recycled content.<sup>6</sup>
