SOLUTIONS FOR BUSINESS: PERSONAL WORKSPACE

THE NEW PERSONAL WORKSPACE

As the workforce redistributes into a more lasting hybrid model, a one-size-fits-all workspace solution does not exist. That's why Logitech creates human-centered technology solutions that help people create and collaborate effectively from anywhere. Our complete personal workspace solutions will help your team do their best work while enjoying a more flexible and satisfying work experience.

As a trusted leader in enterprise technology, we strive to present innovative solutions that are easy to set up and use, simplifying the manageability challenges created by a distributed workforce.

WHAT SETS US APART

Help your employees get things done from anywhere, with more security, greater flexibility, and increased comfort. At home, in the office, or on the go, employees are better equipped for the demands of work with Logitech tools.

GLOBAL AVAILABILITY & SUPPORT

Our products work seamlessly across different platforms and are rigorously tested and compatible with or certified by *Microsoft*, *Zoom*, *Google*, and *Apple*. This makes global deployment seamless and reduces IT help desk involvement. All Logitech B2B products are also offered with a 2-year hardware warranty globally.

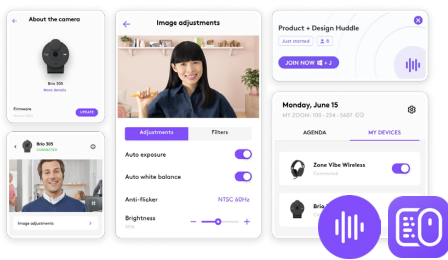

SECURITY

Logi Bolt technology delivers a high-performance, secure wireless connection by combining *Bluetooth*® Low Energy wireless technology Security Mode 1, Security Level 4 with additional Logitech security features to reduce vulnerability when devices are paired to a Logi Bolt USB receiver.

SUSTAINABILITY

As we innovate our new generation of products, we reduce their carbon footprint in any way we can — from their overall construction to the tiniest component. All with zero compromises on quality and performance.

DEVICE CUSTOMIZATION

Predefined customizations and enhanced experiences are available with accompanying software (Logi Tune and Logi Options+), which enables users to optimize their devices based on their specific needs, set default actions for those devices, and streamline repetitive tasks.

REMOTE MANAGEMENT

With Logitech Sync, gain insights into personal device usage while ensuring compatibility and enhancing product performance through firmware updates for Logitech devices.
