

Why choose Microsoft Defender Suite for Business Premium?

Industry leader

Microsoft is the only security vendor recognized as a leader across 19 categories by Gartner, Forrester, and IDC.¹

Enhanced protection with Microsoft Defender Suite

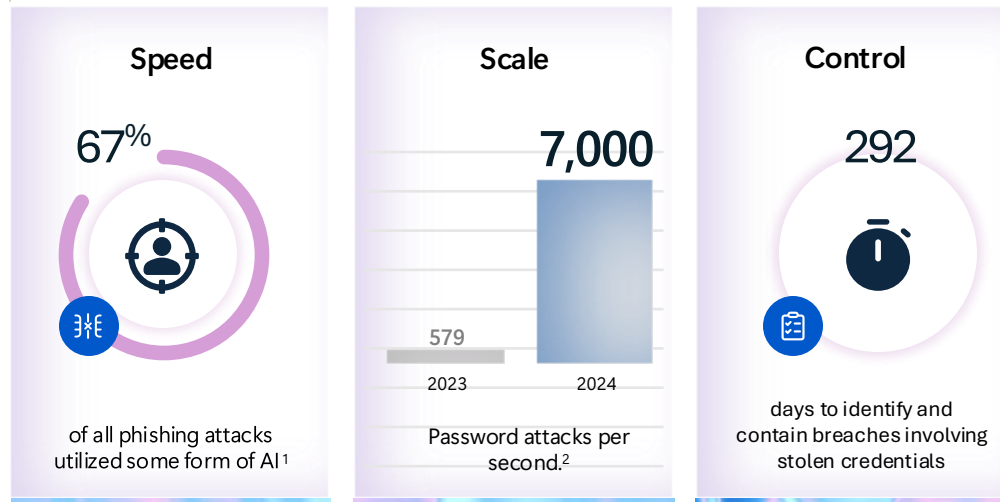

Microsoft Defender Suite for Business Premium provides your organization with the advanced security capabilities, delivering comprehensive protection and response across identities, endpoints, apps, and email threats.

Zero Trust across your entire digital estate—Assume breach, verify each request, and fully authenticate and authorize every request before granting access.

Unified exposure management—Continuously assess security posture, enable proactive risk management and protection of assets.

Unified security operations platform—Leverage a single, integrated solution for end-to-end security operations, enhancing efficiency and protection across your entire digital estate.

Cyber threats have grown 10x
