

The Future of Print Management

Brother and 3manager

brother
at your side

Monitoring and managing your printer fleet doesn't have to be complicated. 3manager eliminates the hassle by providing a secure, cloud-based solution for effortless print and supply management without the need for data collection software.

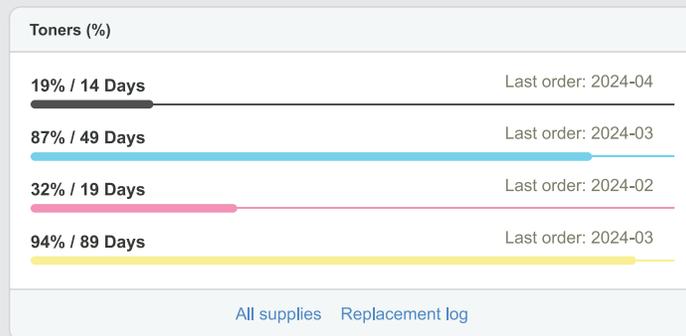

Take Control of your Brother devices with 3manager

By partnering with Brother, this solution automates processes and transforms raw data into actionable insights. Its user-friendly design makes it easier for account managers, supply managers, CSR teams, and even end customers to work with data, ensuring a smooth, collaborative experience with **no DCA or on-site installations required.**

Key Features For Effortless Print Management

Smart Supplies Management

Streamline supply ordering with smart tools like aggregated orders, forecasting, and easy-to-understand supplies analytics.

Need to know exactly when to restock?

Take advantage of just-in-time supplies ordering using “days left” estimations. Customize alerts and set rules based on smart thresholds and logic, including:

Low Supply Threshold

Set your own % level to trigger alerts.

Days Left Estimation

Include supplies with fewer days left—based on your threshold.

Skip items with plenty of supply unless critically low.

Logistics Optimization

Group supplies within a set % range to reduce shipping costs.

Also include supplies with fewer days left than your threshold.

Filter by Department Option

Limit grouping to devices within the same department.

Business Analytics + Reporting and Alerts

Leverage data-driven analytics and business intelligence tools to unlock new opportunities and get more out of printer data.

Additionally, stay on top of your fleet with robust reporting tools and get notified when attention is needed.

Unlock Easy and Secure Print Management with 3manager CONNECT

3manager works even with SNMP disabled, adding an extra layer of security while keeping your Brother fleet running smoothly.

MONITOR

Brother devices will communicate to the 3manager cloud platform and send all relevant data, enabling automated supply ordering and management.

Get access to the following:

- Meter readings
- Volume reports
- Alert notifications
- Firmware version tracking to ensure your fleet stays up to date

Ideal for multi-location businesses: 3manager enables multi-brand data collection, with **no data collector software needed for select Brother devices.**

Works with CEO Juice

3manager integrates with CEO Juice to help dealers solve their most pressing challenges—automating processes, simplifying billing workflows, and addressing issues before they impact clients.

MANAGE

3manager puts integrated cloud-based device management at your fingertips.

No more asking for remote access or depending on a Data Collection Agent (DCA) with remote access to manage devices.

- Push device configurations
- Reboot the device
- Remotely access the device's web interface with EWS Anywhere (requires software and customer's environment).

Print with Purpose

Use 3manager to track your CO₂ impact, then take action—like planting trees—through its integration with PrintReleaf.

3manager is Included with VPP+

Competitive Cost Per Page Pricing on Brother Genuine consumables.

Limited Warranty Extension to cover three full years of warranty coverage on select hardware models.

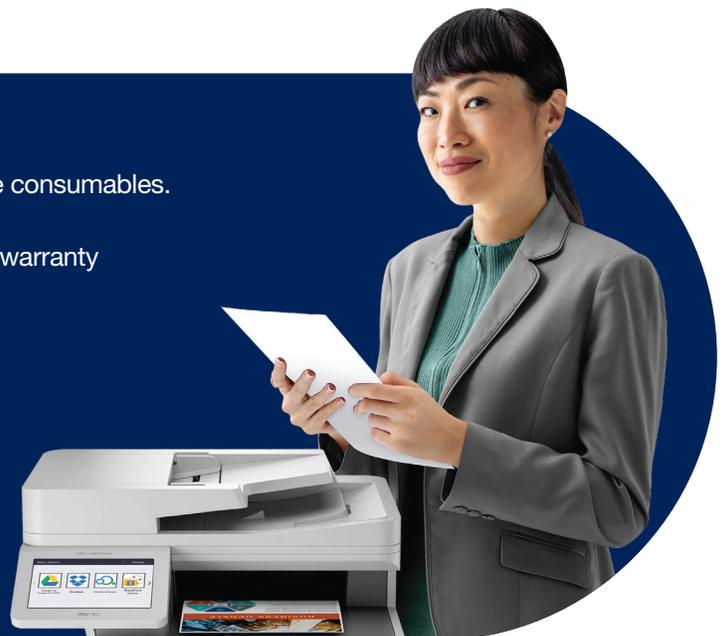

Priority Call Support and Replacement Device Exchange for Major Accounts.

plus...

3manager via Connect to Server onscreen button for easy cloud connection and setup.

1 Requires VPP+ enrollment.
