MEET THE DEMANDS OF THE MODERN WORKFORCE

Whether they're at home or halfway around the world, today's employees are increasingly mobile. The Intel vPro® platform featuring modern manageability tools including Intel® Active Management Technology and Intel® Endpoint Management Assistant makes it easy to support worker productivity while helping to keep work safe.

YOUR CHALLENGE

Employees are working everywhere, both inside and outside the corporate firewall, increasing risk to device security and manageability.

70%
of employees work at least one day a week somewhere other than the office.[1]

↑**115%**
growth in telecommuting employees since 2005.[2]

91%
say that flexible workspaces enable employees to be more productive while on the move.[1]

THE SOLUTION

Intel® Active Management Technology (Intel® AMT) provides manageability of Intel vPro® platform-based devices to meet the demands of the modern workforce. Intel® Endpoint Management Assistant (Intel® EMA) allows IT professionals to easily utilize Intel AMT on-premise or in the cloud, enabling a secure and productive experience for employees anywhere.
